WEAR-EVER HALLITE WARE

Eastern Zone } D0C31⁄2-D0C5⅝
Western Zone }

Newest and most exciting cooking utensils. Beautifully styled to grace today's modern efficient kitchen.

Made entirely of a special extra hard alloy, even to the colored covers which can never tarnish. Superb cooking, as alloy spreads heat faster up the sides as well as across the bottom. Cooks the food over low heat without scorching. Attractive cover knobs and handles with hanging ring. Each utensil complete with two graceful plastic transparent leaf hangers, that let your wall color through.

The most modern touch in housewares

COPPER TRIMMED Prestige

in beautiful, practical Decoware®

...styled with a new fashion flair to fit any kitchen color scheme and bring you new profits ...yet at regular Decoware prices

New "Prestige"—new high style to charm the "modern decor" market... yet you buy and sell this line at regular Decoware prices! And Prestige is *really* copper colored because it's made from high grade tin plate. In a white background, copper trimmed, elegantly modern, Prestige harmonizes with modern decor in any kitchen, and other rooms, too. Prestige simplifies your inventory... eliminates necessity of carrying multi-color backgrounds. And the short line assures rapid turnover. Call, or write, for details.

SAFETY CANS

JUSTRITE

Approved by Underwriters Laboratories, Inc.

A safe and sensible way to handle and store explosive or inflammable liquids.

No leakage—No waste.

Efficient and economical.

Equipped with easy, natural opening devices. Cap closes automatically as soon as released.

Safety Feature—Spout cap controlled by strong non-rusting spring which holds cap closed tight. If can is exposed to extreme heat cap opens to release excessive pressure and closes automatically when pressure is relieved.

Heavy lead-coated sheet steel body, double seamed and soldered. Malleable iron handles and nozzles electrically tinned. High gloss red enameled, baked on.

With Trigger Handle

Cap opens when trigger is pulled and closes automatically when released.

The Edwin M. Knowles China Co.

KNOWLES ®

Newell, West Virginia

DINNERWARE OF DISTINCTION...FOR IMMEDIATE SHIPMENT

Now

KNOWLES CHINA is proud to present an exceptional collection of distinctive patterns. Created by America's foremost potters, these patterns are sales-tested to assure you of a quicker turnover and greater profits.

All patterns are decorated on the highly chip-resistant **oven-proof** [illegible] shape.
Criterion

Each pattern is available in starter service for 4, or complete service for 6, 8, or 12. Packed in individual cartons, these sets are available **for immediate shipment direct** to you from **THE EDWIN M. KNOWLES CHINA COMPANY,** Newell, West Virgina.

A new look in table decoration. Hand-painted under the glaze, this black and white combination is recommended for the modern hostess for use with wrought-iron accessories. Another favorite on the Criterion shape.

Knowles *America's Finest Dinnerware*

DURABLE WARE OF SPIRIT AND BEAUTY FOR THE DINNERWARE YOU'VE ALWAYS WANTED. CHOOSE KNOWLES DECORATOR-WISE SEMI-PORCELAIN.

KNOWLES . . .
first in quality

SUBURBIA . . . in which occurs a lovely meeting of the rural and urban on the new "Forecast" shape—yellow-green meadow flowers with graceful light-and-shadow leaves, in a formal arrangement enhanced by slender trellises, all against a cream white background.

EBONETTE . . . A new look in table decoration. Ebonette is for the modern minded with its square-round "Criterion" shape, its abstract design, its striking black and white color combination—handpainted under the glaze. For added interest most hollow pieces are solid black.

PARK LANE . . . Lovely as its name. Park Lane is the timeless sort of pattern you will treasure for years to come. Enchanting, stylized floral sprays in soft rose, gray and brown encircle the rim—edged in platinum. A perfect gift for the bride.

GRAPEVINE . . . Glorious silver-green leaves on twining stem of rich brown, curl gracefully 'round the rim of the classic "Accent" shape . . . gives startlingly vibrant effect against the frosty white ground. Equally at home with period or modern decor.

America's Finest Dinnerware Knowles

EXCITING NEW INTEREST FOR YOUR TABLE-BEAUTIFUL, DESIGN-WISE SEMI-PORCELAIN. JUST A SMALL INVESTMENT BUYS A LOVELY SET.

KNOWLES . . .
first in quality

WILD OATS . . . A pattern of dramatic interest. Softly colored shades of red, yellow, green and brown bring gaiety and warmth of a summer day to your table. Functional "Accent" shapes in white lend themselves to easy service and care—lovely and graceful to handle.

FESTIVAL . . . full stalks of ripening grain in sun-struck yellow, yellow-brown and shadow-gray, interspersed by slender leaves in zodiac arrangement, with a spatter effect tying the whole together. Modern, yet agelessly beautiful as Nature herself on the new "Forecast" shape.

WHEAT . . . There is unusual beauty, enduring elegance in the slender spears of wheat aglenn with 22K gold—silhouetted against the striking gold-edged "Accent" shape. An exquisite design with the rare combination of traditional formality and modern simplicity.

FANTASY . . . No ordinary pattern this . . . guests and family alike will love this truly delightful dinnerware. Unusual simplicity of design and delicacy of color on lustrous white rimless shapes ("Accent") emphasized by the gleam of platinum on edges.

GENERAL INFORMATION

The Homer Laughlin China Company — the world's largest pottery — was established in 1871. It has grown consistently since then and today, in its five plants all located in Newell, West Virginia, and each one devoted exclusively to the production of dinnerware, it offers the widest range of smartly styled dinnerware to the American retail market. Total capacity of the pottery — with its thousands of ceramic craftsmen, artists and technicians — is in excess of fifty thousand dozen pieces daily. Ever since the turn of the century, painstaking research and artistic skill have added to the laurels bestowed on this organization of coast-to-coast fame.

Only Homer Laughlin produces the new and outstanding lightweight EGGSHELL dinnerware, made possible by new processes and materials — the result of typical American inspiration and ingenuity. You will delight in the rare charm of its graceful patterns and decorations, the subtle air of distinction in its feathery lightness and the knowledge that Eggshell is not only 25% lighter, but also 25% stronger than the finest semi-vitreous dinnerwares produced today.

All Homer Laughlin dinnerware — not only the Eggshell — is guaranteed, under ordinary conditions, against crazing and checking, not for a limited time, but forever. This guarantee can safely be made because only top quality materials and the most approved manufacturing processes are used in the production of this fine American-made dinnerware.

All of the patterns shown on the reverse side of this page are "open stock" patterns — and replacements and additions will be handled by the factory for many years after the pattern has finally been withdrawn from the market.

Dollar for dollar — you just can't buy better ware than Homer Laughlin!

SHAWNEE POTTERIES

Blossom colors and woodland textures rendered in genuine ceramics! More beautiful than wood could ever be. A decorator's delight, a thrifty housewife's pleasant surprise. Beautiful ceramics that reflect good taste in any environment. That's "Fairy Wood"— true Sorcery in Ceramics from Shawnee.

Each piece is capacious in size, with plenty of root-room. The decorated bisque exterior is complemented by high-fired glazes; smooth bottoms protect fine furniture. Small packs in assorted colors provide a complete assortment of all sizes for a small investment. All planters "nest" to conserve counter space. "Fairy Wood" is the one complete line of artware that offers every wanted-size in planters and vases for volume sales.

Show "Fairy Wood" alone or with live plants and flowers. The impulse appeal of this "different" artware is unique. "Fairy Wood" is the kind of ceramics *today's* variety store customer wants — and buys!

GENERAL INFORMATION

STANDARD PACKING

The quantities furnished per carton are designed to facilitate stock control and minimize handling. Accordingly, this ware is offered in standard packaging only, either in assorted colors or one color per carton. Unless specified otherwise, this ware will be furnished in assorted colors.

SIZES AND DIMENSIONS

In the manufacture of high-fired, semi-porcelain ceramic ware, there is some shrinkage. The sizes and dimensions are approximate but will not vary more than five percent. Weights are nominal and may also vary. Carton dimensions furnished upon request.

METHOD OF SHIPMENT

Orders are shipped via Rail Freight unless specified otherwise. Shipments are made at a released value of $24.00 per cwt. in the absence of specific instructions.

CLAIMS

This ware is carefully packed in 200# test, air cell cartons by experienced personnel. Any breakage, loss in transit, or delays in delivery are beyond our control and all claims arising therefrom should be made to the carrier. No material may be returned unless authorization, in writing, has been received from the company. Claims for defective merchandise must be made within 30 days following receipt of shipment.

Fairy Wood IS AVAILABLE IN THE FOLLOWING ASSORTMENTS:

"N" ASSORTMENT

Six of each number in assorted colors.
Seventy-two pieces packed in 12 cartons.
Approximate weight 135 pounds. See reverse side for colors.

"E" ASSORTMENT

Six of each planter and windowbox in assorted colors.
Forty-two pieces packed in 7 cartons.
Approximate weight 80 pounds. See reverse side for colors.

"W" ASSORTMENT

Six of each vase in assorted colors.
Thirty pieces packed in 5 cartons.
Approximate weight 56 pounds. See reverse side for colors.

NOTE: *Fairy Wood may be ordered for shipment with Liana Artware, Accent Ashtrays, and Corn King Kitchenware. See catalogs 18, 19, and 15K for illustrations.*

SORCERY IN CERAMICS by SHAWNEE · ZANESVILLE, OHIO

AFRICAN VIOLET POT AND SAUCERS

For African Violets and all house plants.

Pastel colors accentuate the sylvan beauty of indoor gardens. Nourish your plants by putting plant food in saucer; add water to saucer as it is required. This is the new principle of Hydroponics, or scientific plant feeding. These high-fired semi-porcelain African Violet pots are offered in Pastel Pink, Citrus Yellow, or White, with Tropical Green Saucers. Furnished in assorted colors, or one color per carton.

#533 — 3" — Packed 3 Dozen per case, Wt. 25# per carton
#534 — 5" — Packed 2 Dozen per case, Wt. 27# per carton
#535 — 6¼" — Packed 1 Dozen per case, Wt. 35# per carton

DUOTONE POT AND SAUCERS

Colorful, complementary, and top-quality.

Cash in on the popularity of two-tone combinations. Styled to enhance any plant or floral arrangement, these colorful pot and saucers "dress up" any home. Hydroponic action makes plant feeding easy. All semi-porcelain ceramics. Offered in Turquoise, Citrus Yellow or Pastel Pink, with White saucers. Furnished in assorted colors, or one color per carton.

#494 — 4" — Packed 3 Dozen per case, Wt. 35# per carton
#495 — 5" — Packed 2 Dozen per case, Wt. 35# per carton
#496 — 6" — Packed 1 Dozen per case, Wt. 29# per carton

SHAWNEE POTTERIES • ZANESVILLE, OHIO

PYREX

REPLACEMENT OFFER: This is your guarantee of fine craftsmanship. Any dish or part of PYREX Brand Ovenware which breaks from oven-heat within two years from date of purchase, may be replaced by any dealer in PYREX Brand Ware in exchange for the broken pieces.

Any glass part of a PYREX Brand Range-top ware dish which breaks from heat within two years from date of purchase, when used according to instructions, may be replaced by any dealer in PYREX Brand Ware in exchange for the broken pieces.

NOTE: Marks in the body of this glass are incidental to the process of manufacture and are not in any way detrimental to the use of the ware.

PRICE POLICY: "Retail Prices" as shown in this catalog are the Fair Trade retail prices established in such states as have enabling legislation. In all other areas "Retail Prices" are merely suggested as possible resale prices.

"PYREX" is a registered trademark of Corning Glass Works, Corning, N. Y.

PYREX WARE FOR BEVERAGE SERVING

CORNING GLASS WORKS · CORNING, NEW YORK

For all its beauty—hottest hot, coldest cold can't crack this new serving-cooking ware. Corning Ware has many time saving uses—the same dish can be used for cooking and serving—there's only one dish to wash. Food tastes better because lovely Corning Ware cannot retain flavor or odors of other foods.
Its smooth surface is non-porous.
Corning Ware keeps on looking brand new.
It's as easy to wash as china—even in a dishwasher because handle is detachable.

It's a fact! *New* Corning Ware is...

BRAND NEW...
made from Pyroceram, a revolutionary new material developed by Corning Glass Works (for use in guided missiles) to withstand the temperature extremes and thermal shock of outer space!

BEAUTIFUL...
designed to blend with the finest china, the smartest decor! For all its beauty!

DURABLE...
the finish goes clear through. There is no glaze to scratch, stain or tarnish!

FUNCTIONAL...
Can be used with one-dish utility for frying, broiling, baking, freezing and serving!

VERSATILE...
removable handle and brass cradle provide all-purpose convenience from freezer to range to table!

Your Guarantee

A replacement offer

If this Corning Ware dish breaks, cracks or crazes from temperature changes a replacement will be provided by any dealer in exchange for the damaged piece.

Corning Ware, a symbol of modern living, is a product of Corning Research.

PYREX WARE FOR MIXING MEASURING BAKING

- Wonderfully easy to wash clean—because sticky foods slide right off the smooth, hard surface.
- Unlike other materials, smooth, non-porous PYREX ware can't absorb or pass on any other taste.
- Extra durable, doesn't stain, keeps its new look always.
- Bakes more quickly, browns more evenly.

PYREX WARE FOR MEAT COOKING

- Wonderfully easy to wash clean—because sticky foods slide right off the smooth, hard surface.
- Unlike other materials, smooth, non-porous PYREX ware can't absorb or pass on any other taste.
- Extra durable, doesn't stain, keeps its new look always.

GOLDEN TRIANGLE CARAFES

11-12-[illegible] T5-78-AA

You'll add a subtle air of excitement to tonight's coffee when you serve it in this stunning new high-fashion "Golden Triangle" Carafe Server.*

The exclusive triangular shape creates a new blend of functional beauty, and the golden-bright candle warmer reflects your mood of luxury. The decorations of 22-carat gold, or platinum, are fused into the hand blown heat-resistant glass.

A "GOLDEN TRIANGLE" CARAFE & WARMER. 22-carat gold decorated (see above). Two 8-hour candles included. Gift boxed.

8-CUP SIZE. 6-pack—14 lbs.
T083 ..... Retail **$5.00**

12-CUP SIZE. 6-pack—15 lbs.
T123 ..... Retail **$6.00**

B "PLATINUM TRIANGLE" CARAFE & WARMER. Two 8-hour candles included. Gift boxed.

8-CUP SIZE. 6-pack—14 lbs.
TP083 ..... Retail **$5.00**

12-CUP SIZE. 6-pack—15 lbs.
TP123 ..... Retail **$6.00**

C "GOLDEN TRIANGLE" CASSEROLE & WARMER. Again the exciting new triangle shape, in this triple-duty beauty for cooking, and serving hot at the table. Lovely milk-white oven-proof glass, with crystal-clear cover—beautifully set off in the triangular candle warmer in gold-tone finish. 2-qt. size. Two 8-hour candles. Unit pack, 4½ lbs.
TCAS3 ..... Retail **$5.00**

D GOLD "HARLEQUIN" HURRICANE LAMPS. Candles glow in graceful crystal glass columns. Harmonizing with the "Golden Triangle," the 22-carat gold decorations are fused in. Set of 2 with matching gold-tone bases. 14" tall. Unit pack, 5 lbs.
GHL14 ..... Retail Pr. **$13.00**
As above, platinum decorated, chrome bases.
PHL14 ..... Retail Pr. **$13.00**

* Patent Pending

E TWIN HOT SERVER. The best "friend" a tasty waffle ever had! Delightful decanters for hot syrup and melted butter . . . for keeping sauces, chocolate fudge, gravies, honey, etc., hot, too! Heat-resistant glass servers trimmed in glowing copper; matching hinged covers, black plastic handles. Gleaming copper plated warmer. Four 4-hour candles included. Gift boxed. 6-pack, 11 lbs.
2C013 ..... Retail **$5.00**
As above, platinum trim, black metal stand.
2P013 ..... Retail **$5.00**

Lovely Gifts for any Occasion

F 22-CARAT GOLD TRIMMED CARAFE & WARMER. High-fashion glamor for your table or buffet! Stunning coffee server hand-blown of heat-resistant glass. Glorious gold trim fired in for permanent beauty! STAINLESS STEEL KITCHEN TOOLS

FLINT

2000 SERIES

Continental taper that blends decorator beauty with kitchen utility. Hang-up hole placed low on handle for added ease in placing on or removing utensils from wall rack. Taper of stalk and handle designed to give maximum strength at points of greatest stress. Gauge and temper of stainless used for each blade, bowl, tine or stalk individually selected for proper resiliency and strength. Fork taper ground tines inside and out. Blades are heat treated, tempered and thin taper ground for correct flexibility and bend at proper point. Drain holes in turners designed for maximum efficiency and increase in size according to natural flow of grease or liquid. Potato masher blade round to fit into every corner of pot or pan, yet flat to insure mashing without lumps.

STAINLESS STEEL KITCHEN TOOLS

FLINT

2000 SERIES

Continental taper that blends decorator beauty with kitchen utility. Hang-up hole placed low on handle for added ease in placing on or removing utensils from wall rack. Taper of stalk and handle designed to give maximum strength at points of greatest stress. Gauge and temper of stainless used for each blade, bowl, tine or stalk individually selected for proper resiliency and strength. Fork taper ground tines inside and out. Blades are treated, tempered and thin taper ground for correct flexibility and bend at proper point. Drain holes in turners designed for maximum efficiency and increase in size according to natural flow of grease or liquid. Potato masher blade round to fit into every corner of pot or pan, yet flat to insure mashing without lumps.

Features of the

NEW EKCO GADGET CENTER

Below are the big selling plus features of the new display that are sure to increase impulse sales to a new high.

EKCO GADGETS EKCO

- Newly designed fixture features a giant header shouting "GADGETS" and EKCO, the only nationally advertised name in gadgets

- New slanted bins make every item stand out, makes every item easy to reach. Bin partitions are removable so one or more items can be featured.
- New red, grey, white and blue fixture attracts customers and creates impulse sales. Many items colorfully carded or boxed to create added appeal
- Display contains 20 fast selling gadgets and a complete selection of "2600" and "3200" line kitchen tools . . . plus new utility size tool and the one hand and side handle beaters.
- Price strips identify each item and clearly show retail pricing
- Fixture takes up less than 5 feet of counter space, only 58" long, 24" deep, 40" high

AND THE $135.00 FIXTURE IS FREE TO YOU, MR. RETAILER!

STOVE PADS

TETFOAM—PAD'N SHIELD

For use as a pad or spatter shield for the sink, table, iron, stove and general work surface Can be set up or folded flat.

Three hinged zinc coated rust roof steel panels with asbestos backing on center panel.

Size of center panel 8½x10 inches. Side panels 8½x9¼ inches. Folded flat 8⅝x10 inches.

Each			Each
K2555H	**(PS1)**	**X1D00**	$1.49

One in an envelope, Twenty-four in a ctn. Wt. ctn. 30 lbs.

SPATTER-PRUFE COVERS

MAGIC HOSTESS

Square

Fits electric frying pans and any size skillet up to 11¾ in.

Rustproof aluminum. Foods dry fry. Sloping water-well permits water being added without removing lid from pan. Heat-resistant plastic knob, extra long for finger protection.

Here's how it works—two-layer construction with air conditioned space in between. Louvers let steamy moisture out but keeps grease in.

Protects face, hands, stove, etc.

Each			Each
K2594H	**(222)**	**X1D00**	$1.49
KX2594H	**(222)**	**D8C9**—(Case lots 12)	

Twelve in ctn. Wt. ctn. 7½ lbs.

SPATTER-PRUFE COVERS

MAGIC HOSTESS

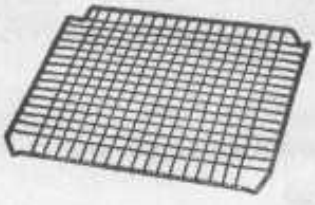

A new household necessity. Air conditioned cover for frying pans. Keeps spatter in and lets steam out. Add water or liquid without removing cover. Dry fries food deliciously crisp.

Two piece aluminum with perforated bottom section and specially designed louvers in top section. Black plastic knob. Easily taken apart for cleaning.

Each			For Skillet, ins.	Each

DISPLAYS

Rubbermaid displays put you in business immediately with increased sales proven over the ordinary counter and table arrangement. Rubbermaid displays are space-savers—at least triple the amount of Rubbermaid merchandise can be shown in a comparable counter area. Designed to fit any store layout, their colorful beauty complements your store, makes impulse and companion sales easy. Rubbermaid can help make your store the "ONE-STOP SHOPPING CENTER."

TURN PAGE FOR COMPLETE DISPLAY INFORMATION ▶

Rubbermaid merchandising fixtures

Specially made to scour and clean with speed and safety in dairies, packing houses, canneries, restaurants, hotels and institutions.

Safe for hands and equipment and will not rust, scratch or splinter.

One continuous ribbon of metal made into tight, elastic "kurls" which quickly and thoroughly dig into and remove encrusted grease, dirt and grime.

They rinse clean under faucet for a long life of repeated use.

*The stainless steel sponge is most desirable and safe for stainless steel equipment used in dairies, restaurants, etc.

Size: 4½ x 2 inches.

Newell DRAPERY HARDWARE

"ROYAL" TRAVERSE RODS

No. 1092 No. 1094

No. 1093 No. 1095

The last word in "Regular" Extension Traverse Rods! Newell's baked-on white enamel finish on heavy, bonderized steel track. Noiseless, smooth-running, and self-lubricating nylon carriers. Each end of rod equipped with a nylon double pulley set. Decorative polyethylene pull-cord tassels. Adjustable brackets project 2-1/4" to 3-1/2". Center supports on longer sizes.

Plus these extra features:

1. Two-way bracket - can be mounted on the wall or to the ceiling.
2. Extra nylon carriers may be added or removed without disassembling the rod.
3. Loop cord feature - facilitates right or left-hand pull.

WITH THE NEW O cedar "150"

sweep-queen® broom

At last! A new smartly styled, lightweight broom that will really make your customers stop and take notice. And once they do, you've got a sale.

Sweep-Queen is completely new . . . from the staple-set CEDARLON bristles to the beautifully bronze colored handle. And, this all-new styling means new impulse sales volume for you. Let's look at some of these all-new features.

Sweep-Queen washes easily, dries quickly yet completely retains its shape. Bristles wear evenly—won't fall out, break or scratch.

light-in-weight, easy-to-handle Sweep-Queen makes it first choice with Mrs. Homemaker. Yet Sweep-Queen gets in and does the sweeping job she wants.

Attractive packaging complements Sweep-Queen's smart styling. Once Sweep-Queen is displayed, it is sure to sell.

Special Features of NYLON *Mops*

MAGNETIC ACTION—picks up and holds dust like magic, leaves no lint.

WILL NOT SHRINK — DRIES QUICKLY.

The 100% nylon mop that takes work away from housework. Magnetically picks up and holds dust, never leaving traces of dust, smudges or lint. So complete in action it glides beneath lowest furniture, hard to get at corners, and narrow areas. Takes less effort and simplifies household chores.

Now a mop to outlast any mop—thick, and fluffy 100% virgin nylon yarn. SprusUp the many featured nylon mop that has a handy metal hanger top.

From the top of its handle to the bottom of its pad—it lasts and lasts.

Shipping cartons contain both Heads and Handles.

SHAPLEIGH'S

The term "Chamois" may only be used to describe the flesher or undersplit of a sheepskin, oil dressed and suede finished, or leather made from the skin of the Alpine Antelope or Chamois, according to an announcement of the Tanners' Council of America, New York. This definition, promulgated by the Council years ago, has been officially recognized by the Federal Trade Commission in two cases and desist orders which were issued last year.

First quality American-Made 100 per cent oil tanned, pocket shape. Instruction slip on how to take care of chamois, attached to each skin.

WIPING CLOTH

KLEEN KWALITY

Sanitary wiping rags for industry. They are washed in live chemicals, boiled in live steam and then baked at a temperature higher than 225 degrees Fahrenheit for 30 minutes. After this treatment they are dull in color, absorbent, very soft and lintless. They remain sterile in transit, due to the heavy cardboard jacket placed around them before the burlap is put on in the bailing process.

JOHNSON'S MAINTENANCE PRODUCTS

This line is intented for all large users, such as hospitals, office buildings, schools, barber shops, shoe stores, taverns, or any other stores who have floor coverings that are in need of maintenance. The quality of this line is the best that can be made. It gives long wear, is easy to apply and gives satisfactory results. Schools all over the country purchase such products in tremendous quantities to be used during the entire school season and the vacation period when schools do their vacation cleaning.

NO-BUFF FLOOR POLISH

Liquid

Green Label

For large floor areas where traffic is heavy. It requires no rubbing, and offers the ideal balance between the qualities of long wear, high coverage, rich lustre, easy application, and quick drying. Approved by Rubber Mfrs. Assn., Johns Manville, Tile-Tex, etc.

For linoleum, rubber, asphalt tile, sealed wood, terrazzo and other floors. One gallon covers about 2500 square feet.

Gallon Cans

Per Can		Per Can
54-NBG1-H	**X2D33**	$3.10

Four in ctn. Wt. ctn. 50 lbs.

5 Gallon Cans

Per Can		Per Can
54-NBG5-H	**X10D69**	14.25

One in ctn. Wt. ctn. 45¼ lbs.

Liquid

Brown Label

Highly water resistant. Shines as it dries. For floors subject to frequent scrubbing. Dries to a bright, transparent gloss without rubbing.

For linoleum, rubber, asphalt tile, terrazzo and well sealed varnished and painted wood floors. One gallon covers about 2000 to 2500 square feet.

Gallon Cans

One in ctn. Wt. ctn. 46½ lbs.

FLOOR FINISH

Shur-Tred—No Buff

A tough, easily maintained, brilliant floor finish that definitely reduces slip hazards on all types of floor. Gives floor a dry non-tacky, non-gritty finish. Easily applied and quick drying. Wet mop-proof.

Per Can		Capacity Gal.	Cans in Case	Wt. Case, lbs.	Per Can
54-ST1-H	**X2D74**	1	4	39¼	$ 3.65
54-ST5-H	**X12D75**	5	1	46¼	17.00

TRAFFIC WAX

A genuine buffing wax for hard service on public floor areas. Its extremly tough, wear-resisting film seals out dirt and greatly simplifies cleaning. Very economical because of high coverage and long wear.

The finest finest for wood, linoleum, terrazzo cement, floors, etc.

Not for rubber or asphalt (use no buff).

Liquid

One gallon Traffic Wax liquid covers about 2500 square feet.

Gallon Cans

Paste

One pound Traffic Wax Paste covers about 400 square feet.

Per Can		Per Can
54-TWP5-H	**X2D25**	$3.00

Six in ctn.

FLOOR CLEANER

A new type of penetrating cleaner which is particularly effective in softening, and thereby aiding in the removal of self polishing water emulsion finishes from the surface of floors. It is equally efficient in aiding in the removal of old films of paste or liquid wax. As it is neutral in composition, it may be used safely on any type of flooring.

Contents One Gallon

Per Can		Per Can
54-WFC1-H	**X2D25**	$3.00

Four cans in ctn. Wt. ctn. 50 lbs.

PENETRATING FLOOR SEALER

(TRAFFIC COTE)

Penetrates into flooring and hardens to form a seal against dirt, moisture, wear. Preserves, increases life of floor, makes cleaning easy. May be used alone, but care with Traffic Wax or No-Buff prolongs wear indefinitely.

For wood, linoleum, terrazzo, cement. **Not for rubber or asphalt base tile.** 1 gallon covers 350 to 450 square feet on new floors; 400 to 600 square feet on later coats. Dries hard over night.

Each		Contents, Gal.	Cans in Ctn.	Wt. Ea. lbs.	Each

ELECTRIC FLOOR POLISHERS

SUNBEAM

Underwriters' Laboratories Approved

Scrubs, waxes, polishes and buffs. Scrubbing brushes molded plastic backs and a mixture of palmyra and plastic bristles.

Quick release mechanism snaps brushes on and off.

Long-life polishing brushes — Long-wearing tampico bristles, molded plastic backs. Snap-on and slip off with release mechanism. Snap-on felt buffing pads handy for quick once-overs between polishings.

Vinyl plastic bumper completely encircles motor housing, tilts up so base rests against wall.

Over-all height (without brushes) 42½ inches, over-all width 12¾ ins.

Reversible upper cord storage hook.

Full 20 foot long, non-marking, vinyl-covered power cord.

Gets under cabinet extensions—over-all height of motor housing with brushes in place—only 6¼ in. Operates flush with wall.

Brushes operated at full 600 r.p.m. speed. No need to "bear down".

Self-aligning, self-lubricating bearings. Worm-and-gear drive—no pulleys or belts to slip or break.

For all types of floors—hardwood, linoleum, rubber tile, painted floors, vinyl plastic, asphalt tile, ceramic tile, cork, marble, terrazzo—even polishes slate, flagstone or sealed brick terraces.

Finger-tip operation.

Comfortable vinyl handle grip with finger-tip on-off switch. Complete with two scrubbing and waxing brushes, two polishing brushes and two felt buffers.

Operates on 110-120 volts A.C. & D.C., 340 watts.

GENERAL ELECTRIC

Easy to carry. Easy to control. Easy to store. For use on all floors, whether wood, tile or linoleum. Brings out the sparkle in any floor wax, liquid or paste. Touch-up buffing easily restores the gleam in self-polishing waxes.

Motor—Quiet 350 watt G. E. motor. Plenty of polishing power.

Contoured Sides—Low shoulder brushes reach easily under low furniture, into kick-space under counters. Non-marring vinyl bumper won't mark wall or delicate furniture.

Vinyl Handle Grip—Designed especially for comfort.

Finger-tip Control Switch—Put complete command of polishing right at the handle grip.

Stores off Brushes—Polishing head swivels down, rests on bumper for storage. Protects polisher, ensures long brush life.

High Speed, Self-Leveling Brushes—Speed, not weight does the job. Self-leveling for best results with problem floor surfaces. Easy to remove, replace with just a turn of the hand.

Cord Clips—Along handle, for compact, neat storage of 22 foot cord.

Weight—12 lbs. Easy to carry, yet heavy enough to polish.

For Brighter, Longer Lasting Floors

The New HOOVER Floor Polisher

Never before has floor care been so easy and quick. No more "down-on-your-knees" — to scrub floors or apply wax. No more aching arms and back muscles from polishing floors. It's all done, quickly and easily, with this wonderful Hoover floor polisher, the new way to save work — save time — save yourself. **Model 5450**

HOOVER

Floor Care by HOOVER

HARDWOOD FLOORS — Now you can wax and polish hardwood floors in minutes instead of hours and have a hard gleaming finish that will last for weeks. Waxing with a polisher makes them last years longer too.

TILE FLOORS — of all kinds can be scrubbed, waxed and polished with the Hoover. When floors become dull between waxings just buff them to restore that bright, fresh look.

PATIO FLOORS of cement, slate or other extra hard materials will look better and clean easier if you keep them scrubbed and polished. And your Hoover will do it best.

CLEANING RUGS with the wonderful new dry cleaning compounds is so easy when you use the Hoover Polisher and its patented cleaning attachment.* No hard brushing to work the compound into the carpet . . . let the Hoover do it.

**Available at slight additional cost.*

NO BRUSHES TO CHANGE! Only the new Hoover has specially designed brushes that will scrub, apply wax, and polish floors . . . without having to change them in the middle of the job. No extra brushes to store away.

65604 H

SPECIALLY DESIGNED motor housing allows polishing under standard cabinet toe space, furniture, and right up to base boards. New design anti-splash skirt only 3/8 of an inch above the floor to minimize splash when used as a scrubber. Modern color styling. Weighs only 12 pounds.

MOTOR is rated at 400 watts, AC-DC. All moving parts are sealed. Never needs oiling. Worm gear drive — so there are no belts to wear out or slip. Brushes revolve at 785 R.P.M.

SWITCH is double pole for extra safety. Located in the base, it is automatically controlled by handle. Polisher will not operate until handle is lowered to operating position.

DOUBLE INSULATION at all electrical connections, makes this the ideal polisher for wet scrubbing.

BRUSHES are constructed with combination of bristles for scrubbing, applying wax and polishing . . . no need to change from one job to the next. Brushes are self-aligning and self-locking. Special plastic brush back not affected by water, wax or cleaning compounds. Set of felt buffing pads included.

CORD SET — special vinyl covered, 22 ft. long. Plug is Hoover patented clip-on type for easy storage.

Guaranteed by Good Housekeeping

Guaranteed by the Hoover Company, world's largest manufacturer of vacuum cleaners, against defective materials or workmanship for one year.

FLOOR POLISHERS

SUNBEAM

Underwriters' Laboratories Approved

Scrubs, waxes, polishes and buffs. Scrubbing brushes molded plastic backs and a mixture of palmyra and plastic bristles.

Quick release mechanism snaps brushes on and off.

Long-life polishing brushes — Long-wearing tampico bristles, molded plastic backs. Snap-on and slip off with release mechanism. Snap-on felt buffing pads handy for quick once-overs between polishings.

Vinyl plastic bumper completely encircles motor housing, tilts up so base rests against wall.

Over-all height (without brushes) 42½ inches, over-all width 12⅛ ins.

Reversible upper cord storage hook.

Full 20 foot long, non-marking, vinyl-covered power cord.

Gets under cabinet extensions—over-all height of motor housing with brushes in place—only 6¼ in. Operates flush with wall.

Brushes operated at full 600 r.p.m. speed. No need to "bear down".

Self-aligning, self-lubricating bearings. Worm-and-gear drive—no pulleys or belts to slip or break.

For all types of floors—hardwood, linoleum, rubber tile, painted floors, vinyl plastic, asphalt tile, ceramic tile, cork, marble, terrazzo—even polishes slate, flagstone or sealed brick terraces.

Finger-tip operation.

Comfortable vinyl handle grip with finger-tip on-off switch. Complete with two scrubbing and waxing brushes, two polishing brushes and two felt buffers.

Operates on 110-120 volts A.C. & D.C., 340 watts.

GENERAL ELECTRIC

Easy to carry. Easy to control. Easy to store. For use on all floors, whether wood, tile or linoleum. Brings out the sparkle in any floor wax, liquid or paste. Touch-up buffing easily restores the gleam in self-polishing waxes.

Motor—Quiet 350 watt G. E. motor. Plenty of polishing power.

Contoured Sides—Low shoulder brushes reach easily under low furniture, into kick-space under counters. Non-marring vinyl bumper won't mark wall or delicate furniture.

Vinyl Handle Grip—Designed especially for comfort.

Finger-tip Control Switch—Put complete command of polishing right at the handle grip.

Stores off Brushes—Polishing head swivels down, rests on bumper for storage. Protects polisher, ensures long brush life.

High Speed, Self-Leveling Brushes—Speed, not weight does the job. Self-leveling for best results with problem floor surfaces. Easy to remove, replace with just a turn of the hand.

Cord Clips—Along handle, for compact, neat storage of 22 foot cord.

Weight—12 lbs. Easy to carry, yet heavy enough to polish.

Finish—Coin gold and cloud white complete with polishing brushes, scrubbing brushes and buffing pads.

TIMERS

PRESTO

Completely new design, beauty, efficiency and dependability. Simple to operate, a single twist of the large easy to read dial winds and sets it for any interval from zero to 60 minutes. A clear loud bell tone signals when time is up.

Ideal for Presto Cookers or any other cooking or canning, photo timing, egg timing and a general reminder for hundreds of other personal uses.

Bright white plastic dial with charcoal base.

Diameter 4½ inches. Height 2½ inches.

FOOD CHOPPERS

KEEN KUTTER

Feeds rapidly and uniformly. Designed to allow food to pass through freely—no clogging or packing—no leakage of juices in cutting.

The sharp teeth actually cut foods instead of mashing—suitable for any food cutting need. Parts are easily removed for cleaning.

Extra quality cast-iron worm and one-piece cylinder, hopper and stand. Heavily retinned and smoothly finished. Detachable heavy crank with ebonized wood handle fastened by thumb screw to threaded end of shaft. Extra large thumb nut to brace and regulate cutters. Screws to table or bench with threaded thumb clamp.

Cutting plates—Each chopper is furnished with 4 fine quality hardened steel plates which have been carefully milled and accurately cut. One of these plates being reversible.

KEYSTONE

Regular Family Size

Anti-drip feature eliminates all dripping at the handle. The cutting end of the barrel being enlarged adds to the copper's capacity and prevents backing up of food.

Straight ribs carry the food direct to steel cutters leaving nothing uncut in the barrel.

Steel cutting blades are perfectly ground on both sides and are reversible. This enables friction to keep the blades sharp.

Bright finish. Easy to clean.

Capacity 2 lbs. per minute. Size of hopper 2⅜x3⅜ inches.

Each			Each

INFORMATION REGARDING CUTTING PLATES

Use No. K3 Fine Cutting Plates for chopping all kinds of meat, raw or cooked vegetables, and all other articles of food which are desired rather fine. To cut raw meat, the thumb screw should be screwed rather tight.

Use No. K4 Medium Cutting Plates for chopping all of the above, also bread, crackers and other food required in small pieces.

Use No. K4½ Coarse Cutting Plates for chopping apples and all kinds of fresh and dried fruits; all kinds of fresh vegetables, clams, salt pork, suet, fish, cooked meats and other food not required in very small pieces.

Use fine side of No. K8 Reversible Cutter for pulverizing dried bread and crackers; for grating cocoanut, horseradish or any food required in small pieces.

Use extra fine side of No. K8 Reversible Cutter for grinding nuts, etc.; for nut butter or anything required extremely fine.

In putting choppers together the shoulder at end of worm should always enter slot in center of cutting plate.

A little dry bread or crackers ground through the machine when through using will clean it very thoroughly. Rinse with hot water before putting chopper away.

STEEL TRAPS

VICTOR

Conibear

For muskrat, mink, opossum, skunk, weasel, barn rat, wharf rat, squirrel, civet cat, etc.

Practical humane killer trap. Can be set in holes, runways, cubbies—on rafters, poles—on the ground, suspended, submerged in water, under ice or covered with snow. Special wire trigger—can be baited or used for blind sets. Two square steel rod jaws work on "Scissors-hold" action. Jaws powered by strong coil spring. Lightweight, folds flat. With chain.

4½ x 5-inch jaw spread.

Each		Each
O–110–H	**D6C9**	$1.10

Twelve in ctn. Wt. ctn. 7½ lbs.

FUR DRYING FRAMES

VICTOR

Quick Dry

Insures fine pelts. Adjustable to any size skin, and places an even tension throughout the entire length. Butt ends cannot be over-stretched and the three prongs on the side clips prevent wet furs from becoming torn. Simple and easy to use.

High grade steel wire frame. Two side clips with three prongs. Will stand up under years of hard usage.

For Muskrat

Width 8 inches. Length 20 inches.

Each		Each
0-1-H	**D3C6**	$0.55

Twelve in ctn. Wt. ctn. 5 lbs.

STEEL TRAPS

VICTOR—Conibear

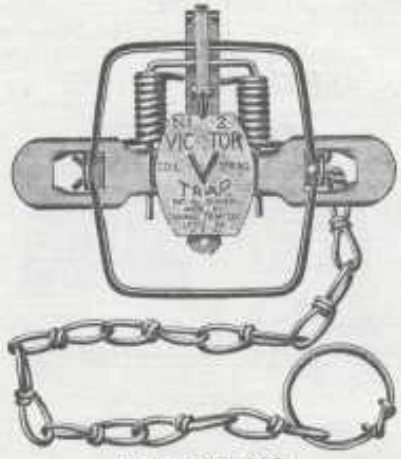

For muskrat, mink, opossum, skunk, weasel, barn rat, wharf rat, squirrel, civet cat, etc.

Practical humane killer trap. Can be set in holes, runways, cubbies—on rafters, poles—on the ground, suspended, submerged in water, under ice or covered with snow. STAR ★ DENOTES BEST SELLER

BORG creates a New "Selling World" for Bath Scales!

Now, offer 58 models (at profit prices) from a 12-scale Display, with Guaranteed Sale!

Borg-Erickson now offers selected dealers a new kind of scale merchandising, geared to quick, high-unit sales of replacement scales. 2,000,000 scales in America over 10 years old need replacement now. You get this business, on a high-profit basis, by displaying the BORG FULL-LINE right in your store, in only 4 sq. ft. . . . offering 58 model-variations, $7.95 to $19.95* —any not in stock, you sell on Special Order!

This new Dealer Plan includes:

1.

A spectacular "World of Color" Display, which shows shoppers a variety of modern scales in beautiful colors. Display spins at a touch. 3 tiers (4 scales each) revolve independently, parade 12 scales (8 models, including handle-types and all colors) to invite the shopper's choice. Constructed of metal—5 ft. high, 2 ft. square.

2.

A Special Order Department—colorful "Merry-Go-Round of Color" at top shows every Borg model-and-color variation. 58 of them!—all in local wholesale stock, ready for delivery. You sell *every* model and color, whether in *your* stock or not!

"World of Color" Display, complete with Special Order Department (valued at $35.00) is supplied FREE with 18-scale Assortment.

3.

Merchandising Cooperation new to the industry. You get not only usual sales aids (ad mats, streamers, reprints, display cards) but also, a steady flow of special material—national ad inquiries, suggestions from Idea Contests, and promotion ideas.

4.

Dealer-Directed National Ads feature the "World of Color" Display and direct traffic to *you* as the Full-Line Borg Dealer.

5.

Guaranteed Sale!—Any Borg model which does not sell in reasonable time will be replaced by other Borg models of your choice. *No dead stock.*

This offer is open only to selected merchants who recognize the folly of selling scales (often, a once-in-10-years purchase) at no-profit prices, when what the customer really wants is a quality scale, regardless of price. No "bargain offer" ever replaced a working scale—but color and new beauty can! Order your "World of Color" Display today to become the Full-Line Borg Dealer in your community! Borg-Erickson, Chicago.

*Denver west slightly higher.

PROCEDURE FOR HANDLING DEFECTIVE APPLIANCES

All Electric Housewares offered for sale by Shapleigh Hardware Company carry a warranty of service from the manufacturer. This warranty is a written statement establishing the limits of the manufacturer's responsibility (usually defective workmanship and materials exclusive of cord sets, for a given period of time) and the degree of recourse to which the consumer is entitled.

An example warranty has been reproduced below. Except for some variation in length of warranty period it can be applied to all Electric Housewares.

WARRANTY

General Electric Company warrants to the purchaser of this new General Electric Appliance that any part thereof (except cord set), which proves to be defective in material or workmanship within one year from the date of original purchase for use, will be repaired or replaced or said appliance will be replaced with a new or factory rebuilt appliance, free of charge. We have no other obligation of liability in connection with said appliance.

To obtain repairs, said appliance should be returned to the dealer from whom it was **purchased,** or should be sent, charges prepaid to the nearest **authorized General Electric Appliance Center.**

DO NOT RETURN APPLIANCES TO US. Shapleigh Hardware Company is not an authorized service center and we are not equipped to make repairs. Returns to us result in unnecessary delay and additional expense to the retailer. We must insist that all returns for repairs be made to the nearest authorized service center. See authorized service centers on the following pages or on Warranty Certificate. Where no repair agencies have been authorized, returns will be made direct to the factory.

A letter giving the date of purchase by the consumer and stating the reason for the return should be attached to the package containing the appliance. If returns are made without giving the date of purchase by the consumer, the service center will be guided by the serial number which indicates date of manufacture. The statement "Within Warranty" or "Defective" is not sufficient information.

Appliances returned to us without written permission, will be forwarded to the St. Louis service center or to the factory concerned. A minimum charge of $1.00 will be made to cover parcel post and handling. We will instruct the service center or factory to submit an estimate of the cost of repairs direct to the dealer.

TOASTMASTER ELECTRIC HOUSEWARES

Automatic Toasters

Fully automatic—just drop in bread and press handle down. Set the toast control knob for light, dark or in-between toast. Superflex Timer assures uniform toasting. Long lasting elements. Hinged crumb tray—press button to open for easy cleaning. Durable, easy-to-clean chrome plating. Cool handles.

2 Slice

Smartly styled. Chrome plated with black and gold handles.

Operates on 110-120 volts A.C. or D.C. 1210 Watts

PROCEDURE FOR HANDLING DEFECTIVE APPLIANCES

All Electric Housewares offered for sale by Shapleigh Hardware Company carry a warranty of service from the manufacturer. This warranty is a written statement establishing the limits of the manufacturer's responsibility (usually defective workmanship and materials exclusive of cord sets, for a given period of time) and the degree of recourse to which the consumer is entitled.

An example warranty has been reproduced below. Except for some variation in length of warranty period it can be applied to all Electric Housewares.

WARRANTY

General Electric Company warrants to the purchaser of this new General Electric Appliance that any part thereof (except cord set), which proves to be defective in material or workmanship within one year from the date of original purchase for use, will be repaired or replaced or said appliance will be replaced with a new or factory rebuilt appliance, free of charge. We have no other obligation of liability in connection with said appliance.

To obtain repairs, said appliance should be returned to the dealer from whom it was **purchased,** or should be sent, charges prepaid to the nearest **authorized General Electric Appliance Center.**

DO NOT RETURN APPLIANCES TO US. Shapleigh Hardware Company is not an authorized service center and we are not equipped to make repairs. Returns to us result in unnecessary delay and additional expense to the retailer. We must insist that all returns for repairs be made to the nearest authorized service center. See authorized service centers on the following pages or on Warranty Certificate. Where no repair agencies have been authorized, returns will be made direct to the factory.

A letter giving the date of purchase by the consumer and stating the reason for the return should be attached to the package containing the appliance. If returns are made without giving the date of purchase by the consumer, the service center will be guided by the serial number which indicates date of manufacture. The statement "Within Warranty" or "Defective" is not sufficient information.

Appliances returned to us without written permission, will be forwarded to the St. Louis service center or to the factory concerned. A minimum charge of $1.00 will be made to cover parcel post and handling. We will instruct the service center or factory to submit an estimate of the cost of repairs direct to the dealer.

TOASTMASTER ELECTRIC HOUSEWARES

POWERMATIC TOASTERS

No levers to push, powerful electric motor lowers bread and starts it toasting, then serves it up fast. Easy to clean, push button operated hinged crumb tray. Beautifully styled in chrome with cool, brown handles.

Bread is lowered, toasted, served up automatically. Toasts one slice in any slot. Set toast control dial for any color toast desired. Exclusive Superflex timer toasts fast when cold . . . faster when hot. Toasting action can be stopped at any time by pressing Toast Control Dial.

3-Slice

For Big Families

Length 11⅝ inches. Height 7¼ inches. Width 7⅛ inches.

Guaranteed for one year against defects in material or workmanship.

Operates on A. C. only, 110 to 120 volts. 1380 watts.

Each		■Each
81–1C4–C	**X24D82★**	$34.95
3 or more	**X23D59★**	

One in ctn. Wt. ctn. 7¼ lbs.

SUNBEAM ELECTRIC HOUSEWARES

ELECTRIC MIXERS

Approved by Underwriters' Laboratories, Inc.

DeLuxe Mixmaster

Choice of 12 scientifically correct mixing speeds. Built-in mixing chart for 22 most common mixing operations.

Motor maintains full power at all speeds.

Automatic beater ejector and exclusive bowl-fit beaters. No unmixed whirlpools or pile-up of unmixed batter at sides of bowl. No hand turning of bowls—automatic bowl-speed control. Bowl-shift lever shifts beaters to correct position for thorough, even mixing. Motor and beaters can be lifted off for portability.

Includes 2 heat resistant glass bowls—4 quart and 1 quart, 26 ounces. All white and colored models supplied with matching heat-resistant glass bowls. Chrome models with white bowls.

Operates on 110-120 Volts A. C. or D. C.

ELECTRIC HOUSEWARES

ELECTRIC IRONS

Spray, Steam and Dry

Sprinkles while ironing. Saves pre-dampening heavy cottons, linens and starched fabrics.

Use as steam iron—even-flow steam penetrates deeper. Presses perfectly. Whips out crisp, satin-smooth ironing. Changes instantly from "steam" to "dry."

Dial temperature—fabric dial selects temperature—for every fabric from synthetics to linens. Handy cord-lift keeps cord off fabric—allows ironing with right or left hand. Large 30 square inch sole plate.

Operates on 120 volts, A.C. only.

Each				■Each
K15C	(F61)	X15D37		$21.95
6-K15C	(F61)	X14D82	—(Case lots 6)	

Six in ctn. Wt. ctn. 19½ lbs.

Combination Steam and Dry

Even-flow steam—steady steam penetration for greater ironing ease.

Flip button up it's on steam—push button down and it's on dry. Easy to fill and easy-to-get-at funnel. Holds about 1 cup of water. Use tap water in all but extremely hard water areas. Refill anytime during ironing. Convenience cord allows left or right hand ironing. Keeps cord set off ironing surface.

Handy fabric dial. Settings for all fabrics including new synthetics.

Specifications:

Calrod heating unit. Double button nooks. Extra-large (30 square inch) soleplate. Attached cord set. 120 volts A.C. only, 1100 watts.

ELECTRIC BLANKETS AND SHEETS

SUNBEAM

Approved by Underwriters' Laboratories Inc.

Guaranteed for One Year

BLANKETS

Thermostatic control automatically maintains same gentle, soothing warmth during all changes of room temperature.

Size—72x84 inches.

Features:

Fabric—25% soft wool, 25% cotton, 50% lustrous rayon.

Binding—Lustrous rayon-satin, 5¾ inches wide. Matches color of blanket. Has special sewing for wear and appearance.

Control—The large, easy-to-see dial indicates the blanket setting at a glance. The soft-shaded nylon pilot light enables you to set the blanket in the dark. The double or single control can be interchanged from one blanket to another.

Washable—The Sunbeam is fully washable, either by owner or a good commercial laundry. Electric wiring is completely water-proof.

Operates on 110-120 volts AC only, 180 watts.

GUARANTEE AND SERVICE PLAN ON MARQUETTE HOME FREEZERS AND REFRIGERATORS

MARQUETTE

Five-Year Protection Plan

One-Year Warranty

Your entire Marquette Home Freezer or Refrigerator is warranted to be free from defects in material and workmanship under normal use and service for a period of one year from date of delivery to original purchaser.

This warranty is limited to repairing or replacing any part or parts that in the manufacturer's judgment show evidence of such defect provided said defective part or parts are returned to the manufacturer, transportation prepaid, within one year of the date of delivery of cabinet.

All replacements and repairs are f. o. b. factory, St. Cloud, Minn. This warranty does not include labor, drayage or delivery charges, nor loss of refrigerant This warranty shall not apply to any part or parts which have been subject to misuse, neglect, alteration, accident or any damage during transit or delivery

This warranty does not provide for adjustment or other attention required by the cabinet or its mechanism other than exchange or repair at our option.

Four-Year Warranty on Compressor Unit

In addition to the one-year Warranty on the complete Freezer or Refrigerator, we agree to exchange at any time during the four years next following the expiration of the one-year Warranty, the hermetically-sealed-in mechanism, if it is proved to our satisfaction to be inoperative due to defects in factory workmanship or material.

This Warranty does not apply to the cabinet, its finish, or any part of the cabinet whatsoever. Nor does it apply to the control or any part of the unit other than the hermetically-sealed-in mechanism. This Warranty does not apply to any sealed-in mechanism which has been subjected to accident, abuse or misuse, nor does it provide for adjustments or other attention required by the Freezer or Refrigerator or its mechanism other than complete unit replacement as provided for above. All replacements are f. o. b. factory, St. Cloud, Minn., and do not include labor of installing the new unit or refrigerant cost.

Removal of the original serial number from mechanical unit or cabinet voids this Protection Plan in its entirety.

MARQUETTE APPLIANCE INC. 305 HENNEPIN AVE., MINNEAPOLIS, 14, MINN.

SERVICE PLAN

Servicing Home Freezers or Refrigerators is the dealer's responsibility. If the dealer does not have a service man he should make arrangements with some competent service man to take care of any service that may be necessary—we provide a good margin between the dealer's cost and the list price to compensate for any reasonable cost of service if it becomes necessary.

The following service labor allowances, however, will be allowed for service performed on Marquette Home Freezers or Marquette Refrigerators within warranty. These service labor allowances have not been based upon a factory expert's time but the average time required by refrigeration service men in the field.

LABOR SERVICE ALLOWANCES

As of July 1st, 1956, the following labor service allowances will be in effect for replacing compressor assemblies and refrigeration systems in Marquette Home Freezers and Refrigerators within the five (5) year warranty period.

HOME FREEZERS

Replace complete compressor assembly $12.50
(compressor, fan motor, condenser)

During the Five (5) Year Warranty Period Marquette agrees to pay the incoming freight charges on the returned defective compressor assembly provided the unit is defective and provided the unit is shipped via cheapest freight.

REFRIGERATORS

Replace complete refrigeration system $8.50
(compressor, condenser, evaporator)

During the Five (5) Year Warranty Period Marquette agrees to pay the incoming freight charges on the defective system provided the unit is defective and provided the unit is shipped via cheapest freight. NOTE: The refrigeration system is sealed and is not to be broken into for service of any kind. If a refrigeration system is broken into or shows abuse or misuse in any way, we will allow only salvage credit.

The Service Allowance of $12.50 for the Home Freezer is the total allowable expense for changing the unit and for the amount of freon necessary to recharge the unit. The amount of $8.50 for the Refrigerator is the total allowable expense for changing the system. NOTE: We must have the paid service bill for all service work covered by the above allowances.

No Labor Service Allowance is made for replacing defective component parts such as cold controls, relays and the fan motor assembly on the Freezer Compressor Assembly according to the warranty furnished with each freezer and refrigerator.

Furthermore, if a returned hermetically sealed unit is found, after factory inspection, to be in perfect operating condition, we will make a flat $7.50 handling and inspection charge on the credit due. In such cases, no allowance will be made for labor service or incoming freight charges.

This Labor Service Allowance Policy is one of the broadest policies that has been adopted in the refrigeration industry. Marquette labor service allowance becomes effective on the original date of purchase and is operative for five (5) years, while practically every other manufacturer starts their service allowance at the end of the first year of service and it is effective only for the last four (4) years of their warranty.

ELECTRIC REFRIGERATOR FREEZER COMBINATIONS

MARQUETTE

Quiet-running "Thrifty-Power" unit.
"Zero-Zone" freezer—insulated all six sides.
Automatic defrosting refrigerator.
Automatically-balanced cold and humidity.
8-position "Dial-A-Temp" temperature control.
Life-time all-steel cabinet.
Efficient fibre glass blanket insulation.

Freon 12 refrigerant.
Specialized deep door storage.
Safety latch easily opened from inside.
Automatic floodlight.
Two-coat dulux white baked enamel finish.
"Mello-Tone" enamel interior—"Sunset" gold trim.
Five year written protection plan.

Approved by Underwriters' Laboratories, Inc.

GENERAL CHEF RANGE, REFRIGERATOR AND SINK

Complete Kitchen

Range, oven, broiler, twin sinks, refrigerator and freezer. Range top and twin sinks are one solid piece of the finest gleaming white vitreous porcelain on heavy gauge steel. Rounded corners—no cracks or crevices—easy to clean. Twin sinks are each 12x16 inches. Deck type swing spout faucet is triple chrome plated.

Gas Range

Three standard size top burners by "Lincoln" with aluminum alloy heads. Automatic pilot light. Valves easily adjustable for natural, L-P or manufactured gases without removing hood. Drip tray under burners for easy cleaning. Oven dimensions: 12 inches wide, 16 inches high, 17½ inches deep. Conventional broiler below oven. Oven and broiler burner rated 14,500 B. T. U. Robertshaw automatic control. Approved by American Gas Association.

Electric Range

3 surface units (Tuttle & Kift) 1100 watts each	3300 Watts
Oven and broiler unit	2700 Watts
Refrigerator motor	185 Watts
Total connected load	6185 Watts

Wired for 115/230 volt, 60 cycle A. C. current.

Construction and oven dimensions same as Gas Range.

Electric Refrigerator

Powered with hermetically sealed Tecumseh compact compressor which carries a five year written guarantee. Trade size: 6 cubic feet. Net 5.7 cubic feet. Shelf area: 19.9 square feet. Ranco cold control provides 7 temperature settings. Cabinet completely bonderized inside and out. Cooking heat does not affect refrigerator temperatures due to triple density Owens-Corning Fibreglas insulation. Horizontal freezer has capacity for 9 ice cube trays or 12 frozen food cartons. Large plastic meat tray below freezer. Two convenient shelves in door for extra storage. UL approved.

Width 42 inches. Depth 29 3/16 inches. Height 40 3/16 inches.

AUTOMATIC ELECTRIC WASHER AND DRYER

MARQUETTE

WASHER

Load it—Set it—Forget it

Two completely automatic washing cycles in one appliance.

Normal cycle automatically gives full washing and rinsing (or all heavy and medium soiled cotton and linens—Short cycle (shorter wash, rinse and spin-dry period) for silks, woolens, man-made fabrics and lightly soiled cottons and linens.

Save time, hot water and detergent.

Fills and Starts—To correct washing level regardless of water pressure or amount of clothes. New patented fool-proof "weight-Fill" system.

Washes Cleaner—Four way water action created by scientifically designed agitation and bowl shaped tub. Agitator turns full 212° (not just a usual 180°). Gets out more soil to give whiter washes.

Rinses Thoroughly—Flushes all dirt, soap and scum up and out of the tub. Does not permit soil to drain through the clothes already washed clean.

Damp Dries—Glass-smooth porcelain inner tub spinning at 625 R.P.M. extracts water safely and leaves clothes soft, wrinkle-free and damp dry.

Full Illuminated Control Panel—Unmatched in beauty and design.

Automatic Fingertip Controls—Simply push button for Hot or Warm wash water.

Partial Fill Push Button—For special washing loads this button controls water level and washing action immediately starts.

Flexible Cycle—While washing cycle is completely automatic, any part may be repeated, shortened, lengthened or skipped at will.

Safety Timer Knob—Unscrews when turned wrong way for fool-proof protection.

Non-Tangle Washing Action—Gets clothes cleaner. So easy to remove from tub.

Sediment Ejector—Sand or sediment sinks to tub bottom and automatically flushes out.

Warm or Cold Rinse Selection—Push-button control for proper water temperature.

Fiber-matic Spin Balance—Automatically adjusts to out of balance loads for smooth and silent operation.

Porcelain Inner and Outer Tubs—Assures lifetime protection against rust.

Porcelain Top—Rust-proof and stain-resisting white porcelain enamel.

Panel Cabinet Construction—Two screws removes front and side panels for servicing.

Fluid Drive—Transmits power evenly and absorbs shocks. The smoothest operating mechanism made.

Cabinet Size—27¼x25¾x36 inches.

Each		Each
21-M15H-C	**X214D95**	$329.95

One in crate. Wt. crate 275 lbs.

DRYER

A Companion to Washer No. 21-M15H-C

Push Button Control—High heat (140° to 175°) for safe drying most clothes. Low heat (115° to 150°) for delicate fabrics. Fluff dry (air without heat) to fluff blankets, curtains, furs, etc.

Automatic Timer Control—Dial your drying time with settings from damp to heavy dry. Shuts off dryer when selected time expires.

Vacuum Fluffed—Air is heated and drawn over and through clothes as they are tumbled and fluffed. Vacuum principle removes more moisture quicker and faster, leaves clothes soft and fluffier.

Fully Illuminated Control Panel—Choose the drying weather and the time — your clothes dry fluffy-soft, sunshine fresh and wrinkle-free—all automatically.

Push-Button Temperature Selection—For flexible drying temperatures—high, medium and "fluf-dri"—the last setting gently fluffs garments and pillows, etc. in clean unheated air currents.

Large 9 lb. Capacity—Drum is bonderized steel with rust-resistant baked aluminum finish.

Satin-smooth Drying Drum—Gently tumbles clothes.

Porcelain Top—Resists stains and rusts.

Interior Light—Illuminates interior.

Easy Access Lint Trap—Located in top of control panel.

Automatic Door Shuts Off—Provides extra Safety.

Multi-Way Venting—To the right, left or rear.

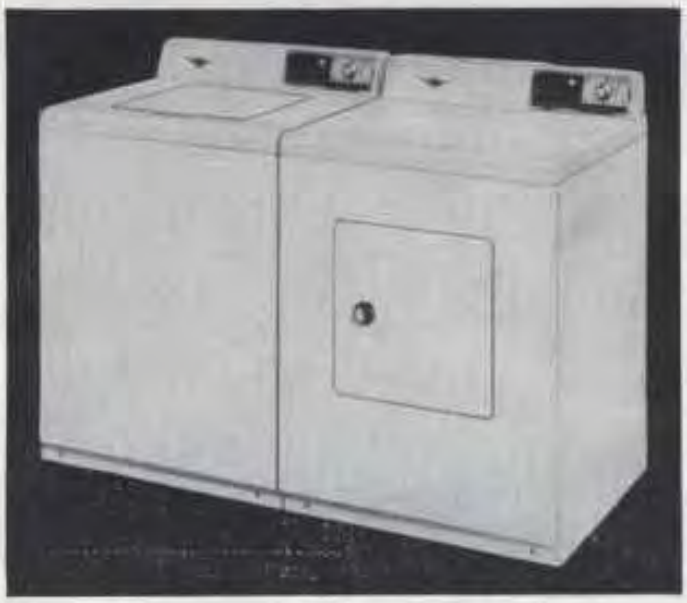

Cabinet Size—27¼x25¾x36 inches.

Each		Each
21-M215H-C	**X169D95**	$254.95

One in ctn. Wt. ctn. 200 lbs.

AUTOMATIC ELECTRIC WASHER AND DRYER

MARQUETTE

WASHER

Fluid drive transmits power evenly and absorbs shocks. Smooth silent operation.

Illuminated Control Dial—Easy to set—esy to read—unmatched beauty and design for your new kitchen or laundry.

Fingertip Water Temperature Selector—Controls "Hot" or "Warm" water automatically.

Automatic Filling—Simply set dial for normal or low water pressure.

Automatic for Partial Loads—Permits washing ⅓ or ⅔ load of clothes with corresponding amount of water without wasting hot water.

Porcelain Bowl Shaped Inner Tub—For greatest possible water action. Outer drain tub is also porcelain enamel for lifetime protection against rust.

Surgamatic Water Action—Gets clothes cleaner, faster and safer.

Four Cleansing Rinses—Assures white washes. Three spin rinses plus deep overflow rinse removes suds, film and soil over top of tub.

Dimensions—27¼x25¾x36 inches.

Each		Each
21-M35G-C	**X194D95**	$289.95

STAR ★ DENOTES BEST SELLER

ELECTRIC PORTABLE WASHERS

HANDYHOT

Approved by Underwriters' Laboratories

Designed for added convenience. Simple to use, easy to carry and may be conveniently stored in a kitchen cabinet or closet.

Ideal for small apartments, summer cottages, while traveling, or in every home as a supplement to the large washer or laundry service for day to day washings.

Uses oscillating agitator washing action, assuring large washer performance in a portable model. The "motor in the top" provides maximum portability, ease of storage and permits the use of the tub on the stove for sterilizing.

Will wash up to three pounds of dry clothes in ten to fifteen minutes. Ideal capacity loads are as follows: four men's shirts, or ten diapers, or one double bed sheet, or ten to fifteen pairs of men's socks, or seven to eight shorts and undershirts, or ten to twelve articles of silk or rayon

ALUMINUM

Semi-Automatic

Set automatic timer for proper washing period for various fabrics. Shuts off the instant clothes are washed.

Ideal for day to day washing. Large washer performance. Built for portability and convenience in storing.

White enameled dome with contrasting black handles. Exclusive patented motor-in-the-dome construction, allows removal without disturbing agitator or clothing. When dome is removed, tub can be used on stove for sterilizing baby's clothing. Aluminum agitator oscillates 84 times per minute. Air cooled motor. Heavy rubber covered cord and plug.

Operates on A. C. 115 volts, 60 cycles, 90 watts.

Capacity 7 Gallons—3 lbs. Dry Clothes

Each		■ Each
81-2612-C	X28D35	$42.50
Six or more	X26D56	

One in ctn. Wt. ctn. 22 lbs.

ALUMINUM

A present favorite in many homes. An essential worksaver.

Dome of pebble blue enamel with contrasting maroon handles provide attractive and colorful design. Aluminum tub. Polished, chip-proof, rust-resistant, aluminum agitator oscillates eighty-four times per minute. A heavy splash-proof gasket completely seals the washer between the dome and the tub and eliminates spill-over. Thick rubber covered cord and plug. Air cooled induction motor.

Operates on 115 volts, alternating current only, 50-60 cycles.

Capacity 7 Gallons

Each		■ Each
81-2619-C	X25D31★	$37.95
Six or more	X23D72★	

One in ctn. Wt. ctn. 22 lbs.

PORCELAIN ENAMEL

For small day to day washings, or the baby's wash. Ideal to take on vacation trips.

White enamel dome has black natural grip handles for ease in handling. Durable porcelain enamel tub. Agitator is of aluminum and oscillates eighty-four times a minute, assuring large washer performance. Splash-proof rubber gasket seals the dome and tub to eliminate spill-over of water. Heavy rubber covered cord and plug. Air-cooled motor.

Operates on 115 volts, alternating current only, 50-60 cycles.

Capacity 6 Gallons

Each		■ Each
81-XL18-C	X22D64★	$32.50
Six or more	X21D22★	

One in ctn. Wt. ctn. 20 lbs.

WRINGERS

For Portable Electric Washers

Full 7½-inch Wringing Surface

Built to fit all Handyhot Electric Washers or may be used on any pail or tub having a rim thickness of less than ½ inch. White enameled steel housing. Cadmium plated steel thumb pressure screw. Soft white rubber rollers 1½ inches diameter, 8 inches long. Stationary steel non-splash drain. Removable cadmium plated steel handle 7½ inches long with natural finish stained hardwood grip, fastened with wing nuts. Cadmium plated steel revolving clamps with thumb screw and rubber pads.

Length 11½ inches. Width 2¼ inches. Height 4½ inches without clamps and pressure screw.

Each		Each

ELECTRIC DRINKING WATER COOLERS

Your Choice of 3 Lines

Compact • Standard • Remote

Listed by Underwriters' Laboratories Inc. Comply with the requirements of Commercial Standards CS127-45.

Highest Quality Engineering and Construction

Cordley's outstanding quality is based on the experience of nearly seventy years devoted to the manufacture of equipment for cooling drinking water. This quality, in turn, has been responsible for Cordley's sterling reputation developed through the excellent record of service achieved by the sale of more than one million water coolers throughout the world.

Backed by the Best Guaranty in the Industry

Every Cordley Hermetic Cooler is guaranteed for five years. A new cooler will be supplied if a defect occurs in the hermetic factory-sealed refrigeration system or cooling tank and freight will be paid both ways within continental United States. All other electrical parts are also guaranteed for 5 years. See specimen copy of this unique guaranty for complete details.

NO OTHER COOLER IS GUARANTEED TO THIS EXTENT

Dual Flow Controls for Convenience
(CS-8, C-13, C-22, C-15W, C-27W, F-10WE)
Simple mechanical button and pedal permit feather touch operation. Not affected by power failures.

Bubbler Jets Aimed for Easy Drinking
No neck craning—the water flow from the bubbler is near and parallel to the front for easy, natural drinking.

Cordley ELECTRIC DRINKING WATER COOLERS

BASIC MODELS

COMPACT LINE

Air Cooled Compact Bubbler Model H-3S (Glass Filler available in place of bubbler)

Air Cooled Compact Bottle Model G-2S Also available with cover (for use without bottle)

Air Cooled Compact Pressure Model M-3S

STANDARD LINE

Air Cooled Bubbler Models CS-8 C-13 C-22

Water Cooled Bubbler Models C-15W C-27W Explosion Proof Model F-10WE

Air Cooled Bubbler Model HC-5 with refrigerator compartment. Also available in bottle type Model GC

Air Cooled Bottle Model G-3

REMOTE LINE

Water Cooled Remote Models SR-17W, SR-24W

Air Cooled Remote Models SR-6, SR-14

GF-500 GF-700 F-610 GF-300

ACCESSORIES

Glass Fillers

GF-500 and GF-700 for external connection to all standard bubbler models. F-610 for all bubbler models (except HC-5). GF-300 for model H-3S.

9-20

9-12

Wall Fountains

For external connection to Remote Coolers or standard bubbler models. (Extra connection provided on back of all bubbler models except HC-5 and H-3S).

COOLER SELECTION GUIDE

To determine the bubbler size needed, allow one gallon for each—

12 persons in offices and schools 7 persons in light manufacturing 5 persons in heavy manufacturing

FEATURES

General—Cabinet 19 gage electro-galvanized steel, phosphorized after forming. Infra-red baked Hammerloid neutral gray finish. Recessed rust inhibited black base. Sealed water cooling unit—vapor and vermin proof. Sealed refrigeration unit—no mechanical connections. Freon-12 refrigerant.

Standard Bubbler Models—Meet all sanitary refrigeration-plumbing code requirements. Squirt-proof bubbler. 18-8 stainless steel top—extra deep, splash-proof. Twist-proof water connections. Automatic adjustable built-in water pressure regulator.

Compact Models—Occupy small space—static air cooled. Model M-3S for city water hook-up, needs no drain connection. Model G-2S (bottle type) is portable—completely self-contained. Can be located anywhere electrical outlet is available. Model H-3S has simplified drain connection.

Compartment Models—Stainless steel compartment (approx. 1 cu. ft.) maintains refrigerator temperature. Freezes ice cubes (2 trays).

Explosion-Proof Model—UL listed for Class I, Groups C&D: Class II, Groups F&G.

REFRIGERATOR WATER BOTTLES

Clean, sanitary container for water, etc. Clear glass. Black metal cap with water-proof liner. Concave sides give perfect grip. Can be used in either ice or electric refrigerator.

Per Carton		Size, qt.	Size, ins.	Wt., ctn., lbs.	No. in ctn.	Each

Sold Only in Full Cartons

REFRIGERATOR DISHES

The safe and sanitary way to store left-over foods in the refrigerator, or for fruits and dry foods in the pantry or kitchen.

Save space in refrigerator—keep foods cleaner, fresher—see at a glance what foods are on hand.

Streamlined—fluted panels give a smart, sparkling appearance. Rounded corners—easy to clean. Sure-grip feature on covers makes them easy to pick up. Ridge inside lid makes it fit closely and prevents slipping off.

STAR ★ DENOTES BEST SELLER

SHAPLEIGH HARDWARE COMPANY **Does Not Guarantee Radio Sets;** we will sell them under the **Factory Warranty** as shown below and will act as the factory representative in making adjustments under the warranty so long as we sell the line.

WARRANTY

The Factory warrants each new radio product manufactured by it to be free from defective material and workmanship and agrees to remedy any such defect or to furnish a new part in exchange for any part of any unit of its manufacture which under normal installation, use and service discloses such defect, provided the unit is delivered by the owner to us or to our authorized radio dealer or wholesaler from whom purchased, intact, for our examination, with all transportation charges prepaid to our factory, WITHIN NINETY DAYS FROM THE DATE OF SALE BY THE DISTRIBUTOR AND PROVIDED THAT SUCH EXAMINATION DISCLOSES IN OUR JUDGMENT THAT IT IS THUS DEFECTIVE.

This warranty does not extend to any of our radio products which have been subjected to misuse, neglect, accident, incorrect wiring not our own, improper installation, or to use in violation of instructions furnished by us, nor extend to units which have been repaired or altered outside of our factory, nor to cases where the serial number thereof has been removed, defaced or changed, nor to accessories used therewith not of our own manufacture.

Any part of a unit approved for remedy or exchange hereunder will be remedied or exchanged by the authorized radio dealer or wholesaler without charge to the owner.

This warranty is in lieu of all other warranties expressed or implied and no representative or person is authorized to assume for us any other liability in connection with the sale of our radio products.

We will not take Radios back for Credit

Radios **Found Defective** within 90 days after date of sale by us will be repaired, No Charge. After 90 days a charge will be made for repairs. **All Transportation Charges Must be Prepaid.**

Radio Must Not be Sent Back Without First Securing our Permission and Authorization Card or They Will be Refused.

Dealers selling Radios are supposed to have mechanics that can make adjustments and ordinary repairs without the necessity of returning sets. Today's Radio sets are so simple in wiring that any radio mechanic can repair or adjust them.

Printed Circuit Chassis—Uniform, long-life dependability. AVC circuit in transistor models reduces directional fade and prevents overload on strong signals.

Dynapower Speaker—4 inch with Alnico 5 permanent magnet and moisture-resistant aluminum voice coil.

AM Tuning Range—540-1600 kilocycles. "Conelrad" Civil Defense band markings.

Built-In Antenna—Ferrite rod for optimum signal-to-noise ratio.

Power Source—Transistor models operate on ordinary "D" size flashlight batteries (Eveready 950, Eveready A100, Burgess 2R or equivalent).

Tube Models operate on one "A" battery (Eveready 717A, Burgess C5 or equivalent) and one "B" battery (Eveready 479B, Burgess P60 or equivalent) or on 105-120 volts, 50/60 cycles, AC-DC.

5 Transistor—Simulated Leather Cabinet

5 transistors plus 1 crystal diode. Saddle-stitched simulated leather case with high impact plastic grille. Luggage-type fold-down handle.

8⅝6x6x2¼ inches.

Approximately 200 intermittent hours on one set of four batteries.

PHONOGRAPHS

GENERAL ELECTRIC

Listed by Underwriters' Laboratories, Inc.
105-120 Volts, 60 Cycles, AC

Four Speeds—16⅔, 33⅓, 45 and 78 RPM.
Record Capacity—Fourteen 7-inch, twelve 10-inch, ten 12-inch or 10 and 12 inch (in same speed) intermixed. Records can also be played manually. Rubber mat reduces record skidding.
Automatic Shut-off—Returns lightweight tone arm to rest position after last record is played.

Stereo-Musaphonic Automatic

For Stereophonic or Conventional Records

Diamond and sapphire-tipped styli compatible cartridge.

Precision-built printed circuit.

Amplifier—40 to 20,000 CPS frequency response.

Twin 8 inch Alnico 5 magnet dynapower speakers.

Volume control automatically adjusts highs and lows.

Separate bass and treble tone controls.

True fidelity sound. 10 watt, three-tube plus rectifier amplifier. Tuner input jack for attaching AM or FM tuner. External terminals for additional speakers. Pilot light in front grille glows when amplifier is on. With 45 RPM spindle. Monaural-stereophonic switch. Matched grain, genuine veneer, hand-rubbed cabinet. Leather-like control panel. Color-styled grille cloth. Tapered hardwood legs with brass ferrules—easily attached or detached. 19x18¾x10⅝ inch cabinet.

PORTABLE SPOT COOLER AND HEATER

TRAVELAIRE

High Style Cool-r-Heater
Cools, Heats, Humidifies, Ventilates, Filters, Circulates

Multi-blade blower adjustable for high, medium or low speed cooling, heating or humidifying—Duotrol valve cuts off water for ventilation only. Vertical grilles adjust in unison for right, left, straight ahead or wider area coverage. Therma-Sleeve heater housed inside blower wheel—thermal overload safety switch. Nickel-chrome heating elements on porcelain insulators. Cooling-filter package slides out for servicing. Built-in recirculating pump, water-level indicator, extra capacity water reservoir. Vinyl-coated steel cabinet—rich brown, pebble-grained finish.

Cooling capacity 125-175 square feet. 1650-watt heater, 5630 BTU's per hour. Water capacity 3 gallons. Filter 309 cubic inches. Diameter blower 6⅝ inches. Motor 1/20 H.P. 8-foot cord. Height 14 inches. Width 15¼ inches, Depth 14⅛ inches.

Underwriters' Laboratories Approved
110-120 Volts, 60 Cycles, A.C.

ELECTRIC FANS

POLAR CUB

Motor—High efficiency induction type. Won't interfere with radio or television.
Bearings—Self aligning, sintered bronze.
Blades—Four deep-pitch air foil aluminum blades.
Guard—Fully enclosed electrically welded rings.
Finish—Metalescent Glacier Green.

Operates on 110-120 volts, A. C., 60 cycles. Two-pole, high starting torque, shaded pole type.

8-inch Stationary Breezemaker Air Volume 450 C. F. M.

Ideal as table or desk fan. Especially effective when placed in front of window to draw in cool outdoor air. Can be carried easily from room to room and makes a handy traveling companion. Tips forward or back to provide indirect circulation.

Dimensions—10½ inches high, 8¾ inches wide.

Each		▲ Each
5-A506-C	X5D30★	$7.95
4 or more	X4D95★	

One in ctn. Six in case. Wt. case 22½ lbs.

8-inch Oscillating Breezemaker Air Volume 450 C. F. M.

Tips back or forward. Focuses airstream on floor or ceiling for indirect circulation. Has on-off switch on motor housing.

Dimensions—11 inches high, 9 inches wide.

Each		▲ Each
5-A520-C	X7D25★	$10.95

EMERSON OSCILLATING FANS

Guaranteed Five Years by Maker

PATENTED OVERLAPPING BLADES

Alternating Current

No. OLP16D

These high quality streamlined fans have many exclusive mechanical features. They are well constructed throughout and are so attractively finished that they will add materially to the beauty of almost any surroundings.

SPECIFICATIONS:

Motors—12-inch fans—Induction type motor, no brushes or mechanical starting device.

16-inch fans—Capacity type motors, no brushes or mechanical starting device.

Blades—Aluminum—Patented overlapping quiet type.

Guard—Ornamental guard of heavy gauge wire, spot welded.

Cord—Rubber covered, with soft rubber plug. Approved by Underwriter's Laboratories.

Oscillation—Can be adjusted to oscillate to any arc from 0° to 90°.

Finish—12 and 16-inch desk fans—Nos. OL120 and OL160 are finished in lustrous baked bronze metalescent enamel on motor and base and guard. Metalescent bronze lacquer on blades, name plate to match. Spiral guards are finished in bright cadmium plate.

16-inch A. C. floor stand fans—No. OLP16D is finished in lustrous baked bronze metalescent enamel on motor and guard. Baked metalescent-bronze wrinkle enamel on coupling, base and lower column of stand, upper column polished chromium, metalescent bronze lacquer on blades, nameplate to match.

EMERSON OSCILLATING FANS

NORTHWIND

Guaranteed Five Years by Maker

Choice of ten inch single speed or 12 inch two speed. Bracket base quickly changes for desk use or wall mounting. Hush treated for quiet operation.

SPECIFICATIONS:

Motor—Quiet, cool-running, induction-type motor—no brushes, commutator, or mechanical starting device. Will not interfere with radio or television reception.
Blades—Quiet-type steel blades. Big breeze capacity.
Bearings—Self-aligning bearings with felt-packed oil reservoirs.
Shaft—10-inch fans have 5/16-inch diameter steel shaft; and 12-inch fans have 3/8-inch diameter steel shaft.
Switch—The 10-inch fans have single-speed push switch in the gear case cover; the 12-inch fans have two-speed push switch in the gear case cover.
Base—Hinged desk-bracket base for wall mounting. Rubber channel base pads.
Oscillation—Provided with adjustment for oscillation in arc of 90° or 45°, also to stationary position—without the use of tools of any kind. Steel oscillating worm is case-hardened.
Guard—Ornamental wire guard.
Cord—Rubber-covered cord, and plug. Approved by Underwriters.
Finish—Baked metalescent bronze ename on motor and base, blades in beige lacquer. Guards are finished in bright cadmium plate.

EMERSON LOW TABLE MODEL FAN

Guaranteed Five Years by Maker

Doubles as a serving table. Circulates air in all directions. Selection of removable plastic caps to blend with any interior. Hush treated for quiet operation.

SPECIFICATIONS:

Motor—Shaded pole, resilient-mounted, will not interfere with radio or television reception, quiet and economical to operate.
Shaft—Solid steel, 3/8 inch diameter through bearings.
Bearings—Self-aligning, oil-impregnated sleeve bearings.
Lubrication—Oil reservoirs packed with felt to retain lubricant. Oiling once a season is usually sufficient.
Blades—Four electronically-balanced blades, patented overlapping design, formed from sheet steel. Large air delivery, quiet operation.
Enclosure—Height 14 5/8 inches, Diameter 15 inches. Steel top. Rubber protectors on base-feet prevent marring of polished floors.
Switch—Three-speed rotary switch on cabinet.
Cord and Plug—Eight-foot rubber-covered extension cord and soft rubber plug—approved by Underwriters.
Finish—Baked enamel finish. Blades, motor and feet in Falcon Brown, top in Beige, trim in old gold and bright chromium plate.
Decorative Caps—Sturdy plastic caps in "cracked ice" decorator designs.

EMERSON ELECTRIC FANS

ROLL-ABOUT AIR CIRCULATOR

Guaranteed Five Years by Maker

Portable circulator, adjustable in height. Direct air flow at any angle within 180° arc.

Size of fan 18 inches. Two speeds. Revolutions per minute 1050-650. Cubic feet of air per minute 4350-3750. Volts 115, cycles 60, watts 125-55.

Motor—Specially wound, fan-duty, capacitor-type. Will not interfere with radio or TV. Quiet and economical to operate.

Shaft—Solid steel, ⅝ inch diameter through bearings, with adequate thrust washers.

Bearings—Oversize sleeve bearings, grooved to distribute the oil evenly.

Lubrication—Large reservoirs, wool packed with cotton wicking. Oiling once a season is usually sufficient.

Blades—Equipped with 4 overlapping-type blades formed from sheet metal. Large air delivery, quiet operation.

Adjustment—Can be tilted to any position from straight up to straight down to direct the air flow at any angle within the 180° range. Two tilt adjusting knobs hold the fan at desired angle of tilt.

Base and Stand—Adjustable stand, minimum 28 inches, maximum 48 inches, floor to center of fan. Die-cast collars for adjusting height of fan, each provided with a lock wing screw for holding elevating section of fan columns in place. Base is formed of 1 inch steel tubing shaped for positive balance. Two 4 inch diameter steel wheels with solid rubber tires provide ready portability. Upper column is formed of ¾ inch steel tubing.

Guard—Safety guards on front and back made of heavy-gauge wire—spot welded, close-spaced, spiral.

Switch—Two-speed pull switch on back cover of motor.

Cord and Plug—Eight-foot rubber covered cord and soft rubber plug—approved by Underwriters.

Finish—Finished in beige and brown enamel.

EMERSON AIR CIRCULATOR FANS

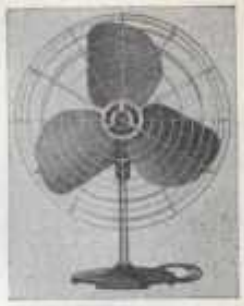

Floor-Column Mounted Air Circulator

Ceiling Mounted Air Circulator

Guaranteed Five Years by Maker

All models have two-speed operation, motors are furnished with a built-in receptacle for attaching plug (plug and cord furnished with column accessories) eliminating the necessity of making wire connections.

Counter-Column Mounted Air Circulator

SPECIFICATIONS:

Wall Mounted Air Circulator

Motors—A. C. fans. Capacitor type. No brushes or mechanical starting device.

Shaft—Solid steel shaft ⅝-inch diameter.

Bearings—Ball bearings, grease packed.

Lubrication—As shipped from the factory, fans will give several normal seasons of service before relubrication is necessary. (Approximately 6000 hours).

Switch—Canopy pull switch in back cover of motor.

Blades—All types formed from heavy gauge aluminum.

Adjustment—Alternating current fans can be tilted to any angle with a 90° arc for directing breeze from any position between horizontal and vertical.

Finish—Back enclosing shell and motor field ring finished in baked metalescent bronze wrinkle enamel. Motor mounting yoke, back enclosing shell-fairing and blade cone polished chromium. Highly polished blades. Guard brackets and guard bright plate.

MOUNTING ACCESSORIES

Floor-Column Mounting—Adjustable floor-column mounting permits placing the fan within the following range—Minimum 4 feet 11 inches; maximum 8 feet 4 inches from floor to center of fan. Base drilled for attaching to floor. Furnished with 20 feet of rubber-covered cord and plug, with female section of receptacle for attachment to male section in motor, installed in stand column. Base packed separately. Base finished in bronze wrinkle. Coupling seamless-steel tube and motor socket finished in polished chromium plate.

Counter-Column Mounting—Made in one size with center of fan 1 foot 8 inches from the bottom of the base. Base drilled for attaching to counter. Furnished with 12 feet of rubber-covered cord and plug and female section of connector for attachment to motor installed in stand column. Base finished in bronze wrinkle enamel, motor socket and column finished in polished chromium.

Ceiling Mounting Fittings—Consists of motor socket finished in polished chromium, round malleable flanged hanger with four lag screws and ceiling canopy finished in bronze metalescent lacquer (no hanger pipe).

Wall-Bracket Mounting—Furnished complete with stud, motor socket and lag screws for attaching to wood construction. Extends 14 inches from wall and provides swivel adjustment to either side. Motor socket finished in polished chromium, bracket in bronze metalescent lacquer.

EMERSON ATTIC FANS

Guaranteed 5 Years

Vertical Discharge, Ball-Bearing Type

Simple, low-cost installation. Fan rests on framed ceiling opening eliminates the necessity of installing a plenum chamber (suction box).

Particularly adaptable for attics with low head-room.

Balanced, deep-pitched blades deliver large air volume at low operating speed, smoothly and quietly.

Built-in lifetime lubrication—sealed fan-shaft ball-bearings and sealed ball bearings in motor end shields are grease packed and require no additional lubrication.

Heavy-duty, lifetime motor is resilient (rubber) hub mounted, has built-in thermal overload protector.

Fan rests on a cushion of rubber which absorbs sound and vibration.

SPECIFICATIONS:

Frame—Steel welded construction firmly braced.

Motor—Split-phase, resilient (rubber) hub-mounted with automatic thermal protector. Grease-packed bearings require no lubrication. Slotted bracket for adjustment of belt tension.

Fan Blade Assembly—Four blades, perfectly balanced. Steel fan shaft operates in rubber insulated, grease packed, ball-bearing arbor bracket.

Belt—V-type, sure traction.

Finish—Frame finished in Sahara Beige, fan blades finished in Falcon Brown.

Accessories Furnished—Rubber channels to insulate the fan from the framed ceiling opening are supplied with the fan.

AUTOMATIC CEILING SHUTTERS

For Above Belt-Drive Attic Fans

Ceiling shutters are designed to operate with minimum air resistance. The frame is die formed and welded to provide a sturdy and rigid support. The aluminum leaves open easily and quietly.

Two tie rods are used to hold the leaves in place at both ends and prevent fluttering while open. Each tie rod has an adjustable spring mechanism with U. L. approved fusible link.

Shutters are finished in off-white enamel over-all. Shutter flange, attached with screws to bottom edge of wood framing of ceiling opening, provides neat, finished appearance—no trim required.

EMERSON-ELECTRIC 24″, 30″ AND 36″ BALL-BEARING BELT-DRIVE EXHAUST FANS

Guaranteed Five Years

Particularly suitable for commercial and industrial installations. While they may be operated at any angle, they are designed primarily for wall mounting. Highly efficient for residential use in suction box installations or outside attic wall mounting. Balance deep-pitched blades deliver large air volume at low operating speed.

Mounting holes in flange of housing facilitate mounting at wall opening. Leads extend into outlet box on fan housing for connecting to wall switch.

Specifications:

Frame—Steel welded construction firmly braced.
Motor—Split-phase, resilient (rubber) hub-mounted with automatic thermal protector. Grease-packed bearings require no lubrication. Slotted bracket for adjustment of belt tension.

EMERSON-ELECTRIC 42″ AND 48″ BELT-DRIVE EXHAUST FANS

Five-Year Guarantee

FOR WALL AND ATTIC INSTALLATIONS

Ball Bearing—For Vertical or Horizontal Discharge

These fans may be installed to discharge horizontally, vertically or at any angle without injury to the motor or fan blade assembly and without any reduction in efficiency. Particularly suitable for buildings without sufficient attic space to accommodate the horizontal type of installation.

With fan capacities ranging from 12,800 to 19,400 C.F.M., it is a simple matter to provide the correct size fan or multiple units for any given requirement, from the average size home to the huge industrial plant.

All fan housings have mounting holes drilled in the face to facilitate mounting at wall opening. Motor location and mounting simplifies servicing and the ball-bearing pillow blocks, which hold the fan shaft, permit continuous operation without undue wear and with only infrequent maintenance and lubrication.

SPECIFICATIONS:

Frame—Steel, welded construction firmly braced.

Motor—"KS" Capacitor-Start, induction-run resilient (rubber) hub-mounted with built-in thermal-overload motor protector. Grease-packed ball bearings. Slotted base for adjustment of belt tension.

Fan Blade Assembly—Four blades, perfectly balanced. Steel shaft operates on two ball bearing pillow blocks.

Belt—V-type, sure-traction.

Finish—Frame and motor finished in black enamel, blades in green enamel.

ACCESSORIES FOR EMERSON ATTIC FAN INSTALLATIONS

AUTOMATIC WALL-TYPE EXHAUST SHUTTERS

Automatic spring-balanced type, available for all sizes of fans, when mounted on outside wall. Each of the two rows of aluminum leaves has a double-spring counter-balancing action which gives positive control. These springs open all the leaves when the fan starts and closes them tightly when the fan is stopped. Leaves are hung on corrosion-proof bronze pins. They prevent the entry of the elements and close the opening satisfactorily when the fan is not being used.

EMERSON ATTIC FANS

Guaranteed 5 Years

Vertical Discharge, Ball-Bearing Type

Simple, low-cost installation. Fan rests on framed ceiling opening eliminates the necessity of installing a plenum chamber (suction box).

Particularly adaptable for attics with low head-room.

Balanced, deep-pitched blades deliver large air volume at low operating speed, smoothly and quietly.

Built-in lifetime lubrication—sealed fan-shaft ball-bearings and sealed ball bearings in motor end shields are grease packed and require no additional lubrication.

Heavy-duty, lifetime motor is resilent (rubber) hub mounted, has built-in thermal overload protector.

Fan rests on a cushion of rubber which absorbs sound and vibration.

SPECIFICATIONS:

Frame—Steel welded construction firmly braced.

Motor—Split-phase, resilient (rubber) hub-mounted with automatic thermal protector. Grease-packed bearings require no lubrication. Slotted bracket for adjustment of belt tension.

Fan Blade Assembly—Four blades, perfectly balanced. Steel fan shaft operates in rubber insulated, grease packed, ball-bearing arbor bracket.

Belt—V-type, sure traction.

Finish—Frame finished in Sahara Beige, fan blades finished in Falcon Brown.

Accessories Furnished—Rubber channels to insulate the fan from the framed ceiling opening are supplied with the fan.

AUTOMATIC CEILING SHUTTERS

For Above Belt-Drive Attic Fans

Ceiling shutters are designed to operate with minimum air resistance. The frame is die formed and welded to provide a sturdy and rigid support. The aluminum leaves open easily and quietly.

Two tie rods are used to hold the leaves in place at both ends and prevent fluttering while open. Each tie rod has an adjustable spring mechanism with U. L. approved fusible link.

Shutters are finished in off-white enamel over-all. Shutter flange, attached with screws to bottom edge of wood framing of ceiling opening, provides neat, finished appearance—no trim required.

Ball Bearing—42 inch Vertical Discharge

Specifications:

Frame—Steel, welded construction, firmly braced.
Motor—Resilient (rubber) hub-mounted with automatic thermal protector. Lifetime lubricated ball bearings. Slotted bracket for adjustment of belt tension.
Models 242 and 242-2 have split-phase motors. Model 342 has capacitor start motor.
Fan—Blade assembly, four blades, perfectly balanced. Steel fan shaft operates in rubber insulated, lubricated, ball bearing arbor bracket.
Belt—V-type.
Finish—Frame finished in Sahara beige, fan blades finished in falcon brown.
Accessories Furnished—Rubber channels to insulate fan from framed ceiling opening are supplied. Special flush-type wall switch with "high," "low" and "off" positions. Fits single gang, standard switch box.

EMERSON EXHAUST FANS

Guaranteed One Year

COMPLETE WITH AUTOMATIC OUTSIDE SHUTTER MOUNTED INTEGRAL WITH FAN

Single-Speed—Sleeve-Bearing

Emerson-Electric popular-priced, single-speed Exhaust Fans are furnished complete with automatic outside wall shutters mounted integral with the fans. The 12 and 16-inch fans have four overlapping blades, the 18-inch fan has three full-type blades; all give maximum air movement plus quiet operation. These fans have specially designed fan-duty motors, with sleeve bearings, suitable for continuous service, for horizontal discharge only.

SPECIFICATIONS:

Motor—These fans have specially wound, fan-duty motors. Resiliently mounted, quiet and economical to operate.

Shaft—Solid steel, ½ in. diameter.

Bearings—Oversize sleeve bearings grooved to distribute the oil evenly.

Lubrication—Large reservoirs, wool packed. Oiling once a season is usually sufficient.

Blades—The 12 and 16-inch fans are equipped with 4 Overlapping type blades. The 18-inch fan has 3 full-type blades. Large air delivery, quiet operation.

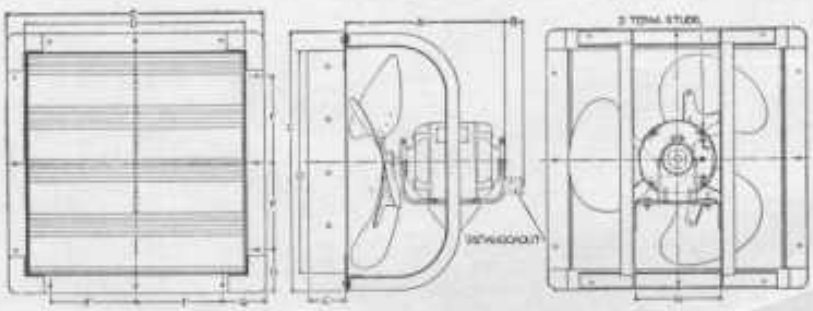

Terminal Connections—Equipped with an outlet box with 6-inch line leads.

Finish—Glossy black enamel finish on motor and frame, blades in satin green lacquer, shutter leaves natural aluminum.

Single Speed, Sleeve-Bearing

For Alternating Current 115 Volts, 60 Cycles, Single Phase

EMERSON EXHAUST FANS

Ball-Bearing Fans Designed to Discharge Horizontally, Vertically or at Any Angle

Guaranteed One Year

For ventilating and exhaust problems, where large volumes of air are to be moved, Emerson electric exhaust fans operate quietly and efficiently. These fans, with blades 12 to 30 inches in diameter, are very conservatively rated and will prove highly satisfactory for installations requiring exhaust fans of these sizes. Due to their quietness, they are suitable for installations in homes, offices, restaurants and other commercial and industrial locations where blade noise would be objectionable.

All have powerful, fully enclosed, self-cooling motors, and may be operated continuously with entire satisfaction.

Single Speed, 12-inch and Two Speed 16, 18 and 24-inch Fans

These fans may be installed in horizontal or vertical position, or at any desired angle, without injury to the motor, or the efficiency of operation, the motor operates on special thrust type ball bearings, packed with grease lubricant and sealed against leakage. Lubrication once a year is the only attention required.

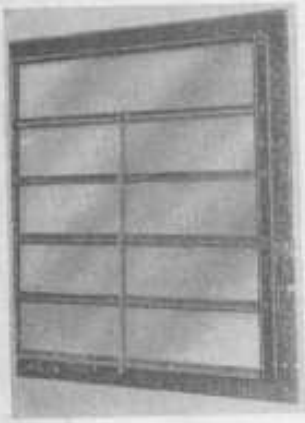

The motor has all the latest Emerson electric features of design, with windings and working parts fully enclosed, to protect them from dust, grit, grease and fumes.

AUTOMATIC SHUTTERS FOR EXHAUST FANS

To automatically close the opening when exhaust fan is located on an outside wall and not in operation, this shutter will be very satisfactory.

The louvers are made of aluminum and each shutter is individually hung on corrosion-proof brass pins to assure continuous service without attention.

GENERAL ELECTRIC

Listed by Underwriter's Laboratories Inc. G. E. Five Year Written Warranty

Floor Circulator

Two fans in one for whole room cooling. Two sets of scientifically designed blades, give complete circulation of air throughout any room. Air moves from floor to ceiling, wall to wall and into every corner. Bottom blade circulates air that hugs the floor. Top blade moves air at the ceiling. Circulating air is drawn in from the top and bottom and is forced up and out through functionally designed louvers.

Can be used as hassock, coffee table or TV seat.

Sturdy steel and plastic construction. Safety design protects fingers from blades. Shaded pole motor, unit bearing, oiled for years of service. Blades and motor mounted in rubber. Three speed toe-touch switch. Rubber feet. Eight foot flamenol cord with moulded plastic plug. Diameter 16½ inches. Height 15¼ inches.

Operates on A. C., 110 to 120 volts, 200 watts.

Each			■ Each
5-F3-C	X39D91★		$59.95
3 or more	X38D16★

THOMAS INDUSTRIES INC.

STAR Light

SL-1599 BRASS CEILING TRACK lets you move any reel or cord-hung fixture back and forth 6 feet. Complete with 8 ft. cord and plug for connection to outlet, or can be permanently connected to ceiling outlet. Includes brass cord weights, splicing urn and mounting screws. Finish: Polished brass.

SL-994 REEL PULL-DOWN with glittering golden-beaded sunburst design on white ceramic glass. Elegant as the most expensive creations. Diameter 16"; pulls down from 18" to 48". Satin brass shade adds crowning touch of richness. Turn switch. Recommended: Two 60-watt. Finish: Satin brass.

SL-996-7 REEL PULL-DOWN distinguished by the smartness of its contemporary design. Handsome black perforated metal shade with matte finish. White frosted ceramic glass diffuser casts soft downward light. Satin brass trim. Diameter 16"; pulls down from 18" to 48". Two lights with switch. Ideal for living, dining, recreation rooms. Recommended: Two 60-watt. Finish: Satin brass and black.

SL-996-8 Same as SL-996-7, except shade is Tone White.

light up your life for Happier Living

with attractive pull-down fixtures

Discover the wonderful versatility of the decorative pull-down fixture. It raises or lowers at the touch of a finger, to create the best light for dining, studying, sewing, playing cards. Think what this means above your dining table! Adding a ceiling track makes your pull-down fixture even more adjustable, allowing it to glide back and forth across your ceiling.

SL-970 REEL PULL-DOWN in the contemporary manner, with beautifully curving shade of satin brass, rimmed with decorative circle perforations. White bent glass diffuser sheds soft downward light, and perforations in shade create charming light patterns at night. Diameter 14"; pulls down from 21" to 52". Recommended: Two 75-watt with switch. Finish: Satin brass.

Ways to use STAR Light Pull-downs for Happier Living

- Over your dining table.
- On a ceiling track in boy's or girl's bedroom, where it can be moved from desk to bed as needed.
- In dining-living room, on a ceiling track, so it can be centered over table for dining, then moved out of way for general living.
- Over counter type room divider separating kitchen from breakfast or family room.
- Over game tables in recreation or family room.
- On a screened porch, where it can be used over a card table for games or meals, over lounging chairs for reading.
- In living room, next to a sofa, so it can be lowered for reading, raised for general use.

light up your life with the Decorative Excitement of the latest designs

What a smart new hat can do for you, the latest designs in STAR Light fixtures can do for your home. Let a stunning STAR Light cluster create a cozy conversational corner in your living room. Add new daytime excitement and enchanting night beauty with a bubble pull-down in the Oriental manner. Highlight your living or recreation room with a high style portable.

SL-1500 PORTABLE wall fixture in an exquisite contemporary design that adds a high note of fashion to living or family room. A softly glowing satin brass shade with a charmingly scalloped edge tops a lovely white bent glass diffuser. Wood and brass pull lets you move light up and down, swing it from side to side for best light over end table, desk, lounge chair or piano. Maximum vertical adjustment 26". Diameter 14". Recommended: Two 60-watt with switch. Finish: Satin brass.

Ways to Use STAR Light's Latest Designs for Happier Living...

CLUSTER

- Over the coffee table in your living room, for decorative charm.
- In a living room corner, above a sectional or a corner table separating two sectionals.
- Over a planter or room divider.
- In a high ceilinged entrance hall, or at the top of stairs.
- In a bedroom corner, above a vanity or desk.

SL-1440 CLUSTER of pure sculptured beauty in a striking contemporary design. Fashioned of hand blown white opal glass with perforated satin brass top trim and spreader bar. Especially effective when used with pastel tinted bulbs, which give it a warm glow. Blends with any color scheme, graces any room, adds romantic charm to any setting. Each cone 10" x 4½"; overall spread 14"; each cone adjustable to 54". Recommended: Three 60-watt. Finish: Satin brass.

SL-974 BUBBLE PULL-DOWN with all the allure of the modern Far East, the serenely decorative beauty of the finest Oriental designs. Pure white plastic in a soft white finish over a contoured wire cage. So versatile you can use it in either formal or informal settings in living, dining, family rooms, even bedrooms and kitchens. Diameter 18"; depth 8"; pulls down from 21" to 49". Recommended: One 150-watt. Finish: Satin brass.

BUBBLE PULL-DOWN

- On a screened porch, over the dining area.
- Over a writing desk, in living room or bedroom.
- In a living room or bedroom corner, over easy chairs for reading.
- Above dining table in dining room or breakfast nook.
- In recreation or music room, over record cabinet or game table.

PORTABLE

- In bedroom, over bed or desk or lounge chair.
- In living room, over end table, easy chair or piano.

THOMAS INDUSTRIES INC.

STAR

light up your life with the Friendly Warmth and charm of Colonial fixtures

Brighten your home with the hospitality of colonial design. In family rooms, breakfast nooks, informal dining rooms, studio apartments — wherever Early American, Ranch Oak, or French Provincial furnishings set an air of casual living — these friendly fixtures add the perfect decorative note.

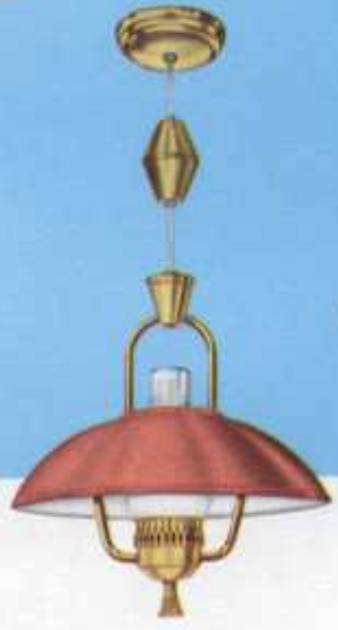

SL-980-1 CHAIN HUNG colonial lantern with frosted chimney under a warmly gleaming satin brass shade. Gives a homey feeling of relaxed enjoyment to any informal room — recreation or bedroom, dining room or kitchen. Overall length 33" when full chain is used. (Chain may be shortened by removing links.) Shade diameter 14". Recommended: One 100-watt. Finish: Satin brass.

SL-980-2 Same as SL-980-1, except shade is Satin copper.

SL-983 CHANDELIER in an enchanting new colonial design, glowing with charm and beauty. Picture your dinner table setting under the soft light from these beautifully curved frosted white glass shades with prettily scalloped, flaring edges. Smart swirl design stem of white blown glass. Gleaming brass chain adds dignity and graciousness. Overall spread 15½"; overall length 28½". (May be shortened to 11½" by removing links.) Recommended: Five 40-watt. Finish: Tone White with brass trim. Matching wall bracket SL-383, page 8.

Ways to Use STAR Light Colonials for Happier Living...

PULL-DOWN

- Over dining table in informal dining room, breakfast nook or kitchen.
- Over serving counter in kitchen or family room.
- Over desk or easy chair in bedroom or living room.

CHAIN HUNG

- Over table in informal dining room, breakfast nook or kitchen.
- In entrance hall, or at head of stairs.
- In bay window area or alcove in den or informal living room.

CHANDELIER

- In dining room, over dining table.
- In sitting room area of a large bedroom, as found in an older home.

SL-979-1 CHAIN HUNG creation in the colonial manner, with a touch of trim distinction. A softly glowing satin brass shade, delightfully scalloped, tops a stunning hand blown opal glass globe encircled with a handsome satin brass band featuring two rows of square perforations. Blends beautifully with traditional furniture. Diameter 13¼". Overall length 27". (May be shortened by removing links.) Recommended: One 100-watt. Finish: Satin brass.

SL-979-2 Same as SL-979-1, except shade is satin copper.

SL-979-11 Same as SL-979-1, except shade is red.

SL-981-2 REEL PULL-DOWN colonial lantern with the friendly charm that makes dining a delight. Raise or lower this softly gleaming beauty simply by pulling the little knob beneath. Satin finish brass shade over a frosted chimney. Pulls down from 18" to 48". Shade diameter 14". 3 way switch. Recommended: One 30-70-100-watt. Finish: Satin copper.

SL-981-1 Same as SL-981-2, except shade is Satin brass.

light up your life with the Sparkle of STAR Light Bent Glass Ceiling Lights for bedroom, hall, dinette

Just as the stars at night make the heavens a panorama of twinkling beauty, STAR Light close-to-ceiling fixtures can decorate your home with jewel-like radiance. In bedrooms, bath, dining or living room, kitchen or entrance hall, they add the final touch of elegance.

SL-187 Magnificent polished solid brass filigree trim accents the white bent glass square decorated with clear symmetrical line design. 16" square; depth 6½". Recommended: Four 60-watt. Finish: White and polished brass.

SL-137 Stunning square of white bent glass with a sunburst design in golden beading. Brings new beauty to a bedroom. Blends with either modern or contemporary furniture. 12" square; depth 5". Recommended: Two 60-watt. Finish: White with golden bead.

SL-138 Glittering golden beading outlines a stylized pine tree design on a pure white bent glass square. Ideal for a man's or boy's bedroom furnished in modern or contemporary. 14" square; depth 5". Recommended: Two 60-watt. Finish: White with golden bead.

SL-139 A striking white and gold deep bend square for your bedroom or dining room ceiling. Delightful golden beaded stylized leaf and flower design on white bent glass. 16" square; depth 6½". Recommended: Four 60-watt. Finish: White with golden bead.

SL-192 Glistening golden beading traces a beautifully simple design of lines and scallops on a handsome white bent glass circular fixture. Blends with either contemporary or traditional furnishings. Diameter 13"; depth 5¼". Recommended: Two 60-watt. Finish: White with golden bead.

SL-193 Fantasy of curved lines, straight lines and circles in brilliant golden beading decorates this pure white bent glass circular ceiling fixture for bedroom or dining room. Diameter 16"; depth 5½". Recommended: Three 60-watt. Finish: White with golden bead.

***SL-123-8** Beautiful white ceramic glass with dainty stem and leaf pattern makes this lovely square ideal for a prettily feminine bedroom, or a living room. 12" square; depth 5¼". Recommended: Two 60-watt. Finish: White.

SL-123-9 Same as SL-123-8, except glass is Rose.

SL-123-10 Same as SL-123-8, except glass is Turquoise.

SL-143 Same as 123-8, except glass is 14" square.

SL-163 Same as 123-8, except glass is 16" square, depth is 5½", has three lights instead of two.

**SL-4 BULK PACK AVAILABLE: SL-123-8 is available in special bulk pack, 12 fixtures to a carton. Order number SL-4 for this bulk pack.*

THOMAS INDUSTRIES INC.

STAR Light

SL-126 Dainty stem and leaf pattern in contemporary styling distinguishes this white bent glass square for bedroom, dining or living room. Handy pull-chain switch. 12" square; depth 5¼". Recommended: Two 60-watt. Finish: White.

SL-159 Flaring stripes of golden beading radiating out from the center of a white bent glass circle make this gay ceiling fixture a real conversation piece. Transitional styling ideal for bedroom or dining room. Diameter 17"; depth 6¼". Recommended: Four 60-watt. Finish: White with golden bead.

SL-165 A skyful of stars, with all the twinkling glitter of the Milky Way, comes to life in this beautifully imaginative square of white bent glass, decorated with golden beading and clear spatter. Gold-colored plastic edging on glass. Delightful for bedroom or dinette. 17¼" square; depth 6½". Recommended: Four 60-watt. Finish: White with golden bead.

SL-154 A stunning frosted design on white bent glass gives this lovely circular ceiling fixture all the imaginative appeal of Jack Frost's artistry. Exquisite for a bedroom. Diameter 13"; depth 5". Recommended: Two 60-watt. Finish: White.

SL-157 Crystal beading with a glittering dewdrop sparkle decorates this striking white bent glass circle with a modern free-form overall design. Perfect with modern paintings and furniture in bedroom, living room, dinette. Diameter 13⅝"; depth 6¼". Recommended: Three 60-watt. Finish: White with crystal bead. Chromium bottom cap.

SL-164 Sleep under a canopy of stars, with this charming star-studded square on your bedroom ceiling. Golden beading decorations on white bent glass. 14" square; depth 4½". Recommended: Three 60-watt. Finish: White with golden bead.

light up your home

handsome STAR-Light Utility Lights

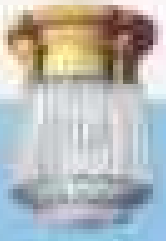

You need good utility lighting in halls, closets, entryways, recreation rooms; and it can be decorative, not low in cost. STAR-Light utility fixtures are beautifully simple in design, executed in a variety of interesting materials. Choose clear glass, blast luster opal glass, colonial glass, crystal glass, or polished brass.

SL-255 Beautiful white hand blown opal glass bowl with scenic glowing polished brass canopy. Ideal for halls, stairway, entry rooms. Diameter 7½", depth 4". Recommended: One 60-watt. Finish: Rat-tiled brass.

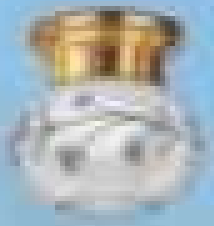

SL-253 Striking creation of pure white bowl glass encircled by a smartly designed cut-out frieze of glowing polished brass. Only 5½" deep. Ideal for locations where shallow fixture is needed. Diameter 9½". Recommended: One 75-watt. Finish: Rat-tiled brass.

SL-252 Handsome hall light in a classic design of molded clear glass set off by a series of polished brass. Length 8½", diameter 4½". Recommended: One 75-watt. Finish: Polished brass.

SL-254 Charming hallway or entryway fixture of sparkling clear crystal glass molded in pattern design. Mounting and insert brass holder adds dimension. Height 5½", canopy diameter 4½". Recommended: One 40-watt. Finish: Polished brass.

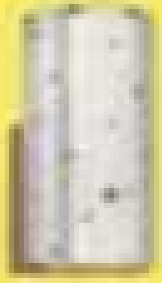

SL-250 Add a touch of elegance to halls, entries, and small areas with this stunning white ceramic glass globe embossed with a graceful grape design. Diameter 6", height 6", canopy diameter 4½". Recommended: One 75-watt. Finish: Polished brass.

SL-256 Here's a beauty of a wall bracket, with an colonial fabric-type design in glittering crystal beading on white bent glass. Use singly or in pairs for ceiling decorative effect in hallways, bedrooms. Height 7½", width 4½", extends 4½". Recommended: One 75-watt with switch. Finish: Polished brass.

SL-251 Charming colonial wall bracket with cleverly cut beautifully bevel framed white glass. Fancy scalloped edge. Delightful finishing a hallway, recess, or entry. Ideal as buffet, a built-in dressing table. Height 7½", width 4", extends 7½". Recommended: One 60-watt with switch. Finish: Fine white. Matching chandelier SL-260, page 5.

SL-257 Clear glass ware on white bent glass plate with shimmering light velvet flat finish. Wall bracket is curved on. Beautiful with lighting for hall, bedroom, dining room. Use colored in a conversation room for romantic atmosphere. Height 7", width 4½", extends 4½". Recommended: One 60-watt. Finish: Satin brass.

16 *lighting ideas for Happier Living in every room of your home*

THOMAS INDUSTRIES INC

STAR Light

1

On paneled walls, use a wall fixture to bring out the beauty of the wood grain.

2

In bedrooms, use portable wall brackets for reading, sewing, studying.

3

Install a recessed fixture over tub in bathroom, for beauty and safety.

4

In a combination den-guest room, use a pull-down to give good light for reading, card playing, hobbies.

5

Above a buffet, use a soffit with cones, for attractive decorative accent and convenience in serving.

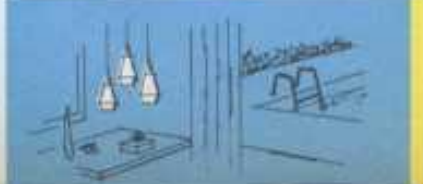

6

With off-white walls, install a low hanging cluster that casts most of its light down on furnishings and carpeting and little on walls and ceiling.

7

To create a feeling of warmth, use wall brackets to match a chandelier.

8

To create a cozy conversation area, use a low hanging cluster over a coffee table in the corner of a room.

9

Pulled low over a dining, coffee or end table, a pull-down creates pleasant social intimacy.

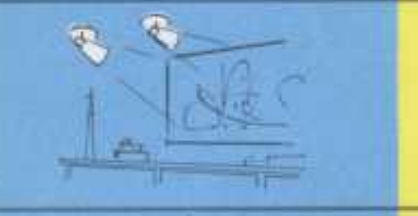

10

In a bedroom, use a pull-down alongside the bed, and wall brackets on each side of the dresser.

11

Use a "bubble" pull-down on a screened porch to accentuate the garden atmosphere.

12

In a dining room, or dining-living combination, use bullet accent lights on ceiling, adjusted to throw their light on a buffet and the wall surface behind it.

13

In a child's room, use a pull-down over small table or desk, so that light is adjustable for coloring or games or reading.

14

In a girl's room, use a "bubble" pull-down for decorative femininity and good light for reading.

15

Use a post light or two at the outside edge of a patio.

16

Use cone or accent lights under the eaves, to light grounds and for protection. Use wall brackets on both sides of entrance door.

STAR Light Fixture Displays and Showrooms

Magic Wonderlands of Decorative Home Lighting

Be you're building a new home . . . or planning to give your present home a new look by remodeling it . . . or simply by redecorating it with light. Then come to the neighborhood lighting center featuring this colorful STAR Light display. You'll see all the latest styles and types of lighting fixtures . . . you'll get exciting new ideas for decorating with light . . . and you'll find the help you need in making the right selection of new lighting fixtures for your home.

You can buy with complete confidence when you order STAR light fixtures. They are sold only by fine craftsmen who are members of the I.B.E.W. affiliate of the A.F. of L. Only quality materials are used, and all fixtures are submitted to Underwriters' laboratories for approval. STAR light fixtures are planned to be your best buy tomorrow. They are nationally advertised, and backed by the reputation of Thomas Industries Inc., world's largest lighting fixture manufacturer.

SLIMLINE FLUORESCENT LIGHTING FIXTURES

UNDERWRITERS APPROVED **AURORA** **UNION MADE**

For Operation on 110-125 Volts, 60 Cycle Alternating Current Only

INSTANT-STARTING

No delayed action—Slimline units light immediately. All channels are "exact length" type and conform exactly to the rated lengths of their respective lamps.

IMPROVED EFFICIENCY

An eight-foot Slimline fixture produces more light, foot for foot, than four-foot units, and consumes less current. 430 M. A. Ballasts. Guaranteed for two years against defective workmanship and materials.

POSITIVE LAMP CONTACT

Plunger-type lampholders support lamps securely and prevent tube disengagement.

EASIER INSTALLATION

Simplified wiring—less units required.

LESS MAINTENANCE

Long lamp life—No starters to replace as in the case of regular four-foot fixtures.

Reflector covers are easily removable for maintenance.

MODERN STREAMLINED APPEARANCE

New opportunities are presented for decorative lighting effects.

Four-Light Slimline Channels—Less Lamp Bulbs

Each		Lamp Size	Length of Channel	Weight lbs.	Each
‡F496-M	X25D75	4-96 inch T12	96 inches	53	$38.50

Mounting Stems and Canopies for Above

Consists of two stems and two canopies for making any of the above flush fixtures into pendant or drop type. 24 inch is standard length furnished but can furnish from factory any length in multiples of six inches.

Per Set		Per Set
7-SP-M	X2D75	$4.15

One set in ctn. Wt. ctn. 4 lbs.

Industrial Type

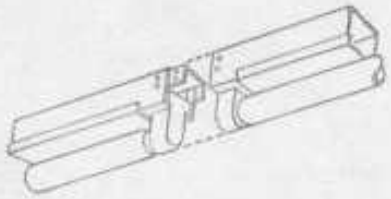

Heavy duty, full size units with deep reflectors providing side shielding of 13 degrees. Lampholders spaced on 5-inch centers on two-lamp units and 2½-inch centers on three and four-lamp units. Units are finished in durable electrically baked enamel with reflecting surface in white and exterior portions in gray. A quarter turn of captive fasteners releases reflectors for maintenance on two and three-lamp units. Channel is equipped with sufficient knockouts and fittings for chain, stem, conduit, surface and continuous mounting.

Less Lamp Bulbs

Watch Dog

This starter gives longer, more satisfactory service than ordinary starter and provides—

Positive Lock-Out of dead lamps.

Eliminates blinking and flicker at end of lamp life.

Precision Starting and maximum lamp life—also less wear and tear on ballast and starter.

Instant Lamp Replacement—Dead lamp can be removed at once and starter reset by pressing button at the top of unit—No cooling or waiting before removing dead lamps.

Reduces Maintenance Time to a minimum—Saves current usually required to keep dead lamps locked out of circuit.

K574M—Starter for 40 watt lamps.

GENERAL ELECTRIC LAMPS

[redacted]

Automatic Electric Lamps are sold **Outright** to the dealer for resale purposes on Central Electric Unit II Purchase Contracts. Any lamps with good coils missing will be sold less than $0.05 and within 60 days (120 days) credit is allowed for the contract.

Central Electric Lamps are sold on **Consignment** to dealers who will agree that $500 net will open. The necessary application and contract blanks will be sent direct to the dealer upon request or direct to the dealer. These contracts must be signed in duplicate.

To Obtain the Consigned Stock. Dealer must make application for Central Electric agency (consigned) contract. The necessary application blanks will be sent direct to the dealer upon request or direct to the dealer. These applications must be signed in duplicate—one copy of which will be retained by the General Electric Lamp Company and the other copy will be returned to the dealer.

Dealer Signing Application for General Electric Agency Representative will be given an initial consigned stock of lamps approximately $1 to $5 for each month according to sales.

After Initial Consigned Stock of Lamps is Opened in the Dealer an additional shipment will be consigned to replacement and will be billed to the dealer on acknowledgment received of the order. On the first of each month a statement will be sent to the dealer showing the value of the lamps the Central Electric Co. or their representative shipped.

90% PURCHASERS MONTHLY CONTRACTS

Any purchase of less than $0.00 net value—Net Inv. no discount.

Any purchase of $0.00 or more but under [redacted] net, discount from standard list.

For a purchase of $0.00 for value or less (not a standard package) 40% discount from standard list.

For standard package or more, 40% discount from standard list.

90% PURCHASERS UNDER A CONTRACT

To Consumer Purchasers Under Such Contract, as factory for resale purposes only, as railroads, churches, theatres, independent hotels, business houses, electrical supply companies, city and state governments, office buildings etc., contract terms of sale will be made as follows, the following prices and rates. Basis of contract is the standard for which standard annual requirements or purchase total purchases of incandescent lamps.

GENERAL ELECTRIC LAMPS

INFRA RED BROODER LAMPS

Flood type with silver reflector. Interchangeable with R-40 type lamps in existing equipment. Used alone or in combination with R-40 types they provide flexibility that permits economical adjusting to temperature conditions. Particularly effective for brooding older chicks and larger animals that require less heat. This long life lamp (over 5000 hours) can be mounted lower without getting a "hot spot."

COMPLETE LIGHTING UNIT

For Indirect Lighting

Semi-indirect inside frosted decorated enameled bowl. Has a coating of soft toned enamel on the lower part of the bowl which mellows the light. Three concentric rings in the enamel and clear spot at the bottom add decoration, life and sparkle. The special shape of the bowl with the shielding enamel sends most of the light upward. Designed for base up burning.

The Bulb with the Built-in Shade

Medium base. Rated life 1000 hours.

THREE-WAY LAMPS

Type PS25 Type G30

These lamps are designed for use in the new type study and reading lamps for direct and semi-indirect floor lamps; they have two separate filaments each of a different wattage and each capable of being lighted separately or in combination with the other to produce three levels of illumination. Inside frosted to assure complete diffusion and to avoid uneven light streaks and harsh lines of cutoff on ceiling and sidewalls when used in indirect portables and wall urns.

For Discount Schedule, See Section 17—Page 19.

SILVERED BOWL REFLECTORS

Applicable to all types of indirect equipment. Also for direct lighting reflectors and shades to produce high quality illumination. These lamps are standardized with inside-frosted bulbs because of the desirability of eliminating streaks, striations and shadows of fixture supports.

Permanent coating of mirror silver on the bowl. This coating, which is an integral part of the lamp, shields the brilliant filament and forms a highly efficient reflecting surface which does not dull or tarnish throughout the life of the lamp. Use in a base-up position, the silvering serving as a highly efficient indirect reflector. 150 watts and above should be used only in porcelain sockets and in fixtures so designed that the temperatures of the lamp and fixture do not exceed limits for satisfactory operation. Such precautionary measures should be applied to all high wattage lamps, but the heating effect is more pronounced with silvered bowl lamps because the silvering redirects the heat toward the base and socket assembly.

GENERAL ELECTRIC LAMPS

PROJECTOR SPOT LAMPS

This lamp provides a high intensity, accurately controlled beam for spotlighting objects and operations not sufficiently illuminated for general lighting. Since the reflecting surface is hermetically sealed within the lamp, it cannot be affected by dirt, moisture, or insects, thus the lamp has wide application both indoors and outdoors.

[illegible] Volt

*LUMILINE LAMPS

With Disc Base

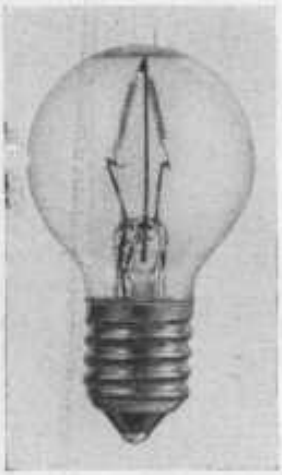

Ideally suited to modern decorative concepts for built-in illumination or applied decoration where space limitation is a factor. For lighted displays, niches, small coves, signs, mirrors, paintings, luminous panels, and the like. Specially designed sockets or "Lamp Holders" of small dimensions make possible the use of Lumiline Lamps to form continuous lines of light of low brightness. The lamps may be used either exposed or in narrow trough reflectors.

Instead of the conventional screw base and the usual method of mounting the filament, the Lumiline Lamp has a contact cap at each end, with the filament disposed along the axis of the bulb for almost the entire length of the lamp.

*A standard package of General Electric Photolamps is defined as a package, or packed by the factory, of that "Standard Package Quantity" designated for each lamp in the Price Schedule and the lamps in each a standard package may not be of different specifications.

GENERAL ELECTRIC NEON GLOW LAMPS

Long Life

For Use on Commercial Voltages

Glow Lamps and Outdoor Light Producing Overlaps Light is Produced Through the Agency of Electricity Excited Rare Gases.

a-Blue g-Green I-Rose g-Red

The Lamps Require Slightly More Commercial Lighting Circuits the Resistor Devices Being Required.

Rated At Elapsed Hour Produce a Negligible Amount of Blue, and Are Normally Operated on Transformer and Must be Subjected to Voltage Variations Within Certain Definite Limits Since Life or Light Output Will Vary an Average Rated Life of 2,500 Hours.

The Characteristic Orange-Red Glow of the Neon Lamp Causes it to Search for Any Glow Surrounding Lights.

Many Useful Purposes are Served by Glow Lamps as a Very Wanted Saving in Cost of Both Current and Maintenance.

Glow Are Use to Indicate on Pilot Signals and Indicators in the Laboratory, for a Stroboscopic Illuminant Has Practically No Light Flicker Sensation.

In Radio or Indicators on Short Waves, as Oscillators, Volume Level Indicators and as a Means of Maintaining a Flow.

In Many Low Current Consumption for Night Lamps in Bedrooms, Bathrooms, Hallways and Other Locations.

UNDERGROUND TYPE UF CABLE

Listed by Underwriters' Laboratories, Inc.

Type UF Multiple Conductor Cable is recognized as both Type AZ Underground Feeder Cable and as Type NMC Non-Metallic Sheathed Corrosion and Moisture Resistant Cable.

Particularly suitable for use on farms and in rural areas and is the most economical cable for direct burial underground. Its lower cost and its dependability in damp or corrosive locations make it ideal for electrical distribution, from load center to outlying farm buildings and residences. By using this cable, overhead wiring hazards are eliminated.

The insulation for the conductors and the jacket is a tough thermoplastic which gives type UF cable its damage-resistant characteristics.

600 Volts.

THERMO PLASTIC BUILDING WIRE

Listed by Underwriters' Laboratories, Inc.

Type TW, Thermo Plastic Moisture Resisting,

Solid Copper Wire—600 Volt

Small diameter thermoplastic-insulated building wires can be used to advantages for new wiring or for rewiring in industrial; commercial, and public buildings, theatres, hospitals, apartments, etc. For general-purpose wiring, and for wiring in wet locations. Approved by Underwriters' Laboratories, Inc. The 1947 National Electrical Code permits this type to be used for the conduit wiring in sizes No. 14 to 0000, and for open wiring in sizes No. 14 to 2,000 MCM.

The thermoplastic insulation of this wire has long life and high dielectric and mechanical strength. It is resistant to flame, oils, acids and alkalies. In addition, type TW also has a low moisture-absorption rate, and is approved for use in lieu of leaded cable in raceways in wet locations. The unusual characteristics of this insulation make possible the reduction of its wall thickness and the omission of an over-all braid. Brilliant colors, smooth, glossy finish.

UNARMORED SERVICE ENTRANCE CABLE

Listed by Underwriters' Laboratories, Inc.

TYPE SE—STYLE U—WITHOUT STEEL ARMOR

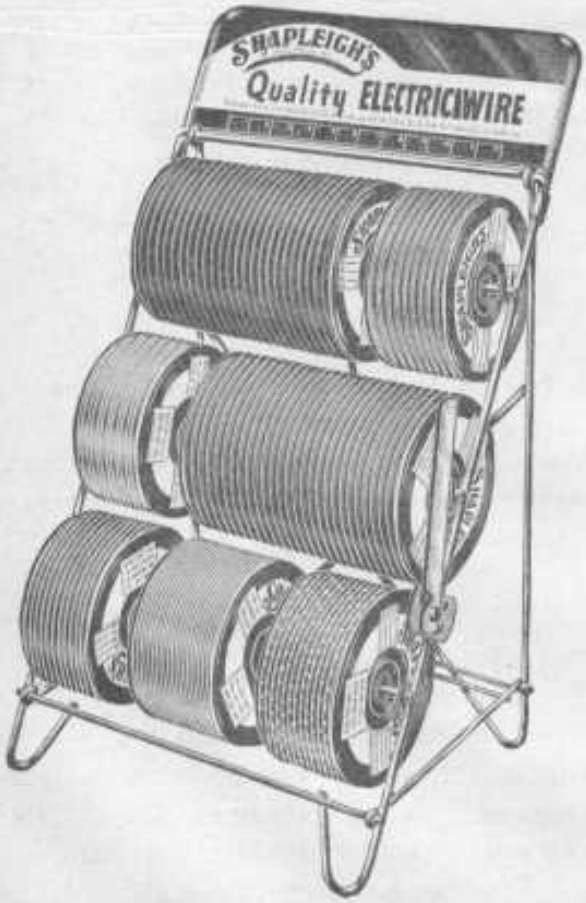

This cable is recommended for use from the entrance cap to the meter equipment, and can be installed directly on the outside of the building without conduit protection.

Construction—Conductors consist of stranded tinned copper separately insulated with N. E. C. 30%-performance grade rubber to required insulation thickness. Each conductor is braided and weatherproofed with Polar indentification. The bare neutral conductor consists of individual strands of tinned copper concentrically laid, over which is applied a double wrap of heavy rubber tape and finally a heavy weatherproof and flame-retarding over all braid.

WIRE MEASURING SET

OLYMPIC

Heavy Gauge Equipment

Built for efficient and rugged service. Handles large materials including building wire, multi-conductor cables and cordage to the maximum meter capacity of one inch diameter.

FOR MOUNTING ON COUNTER OR WORK BENCH

Meter—Assures accurate and efficient measurement. All gears and moving parts enclosed. Metering wheel is machined steel. Dials quickly reset to zero. Convenient release handle permits quick insertion of material. Oilite bronze bearings. Wrinkle gray enamel finish.

Meter Stand—Light in weight but sturdy, of welded steel construction with wrinkle gray finish. 14 inches high.

Reel and Counter Stand—Collapsible reel will hold 500 feet of No. 14 insulated wire, 3/16 inch manila rope or equivalent. Open construction permits tying of coils before removing of reel. Does not bend wire sharply. Steel construction throughout. Reel 12 inch diameter. Stand 12 inches high.

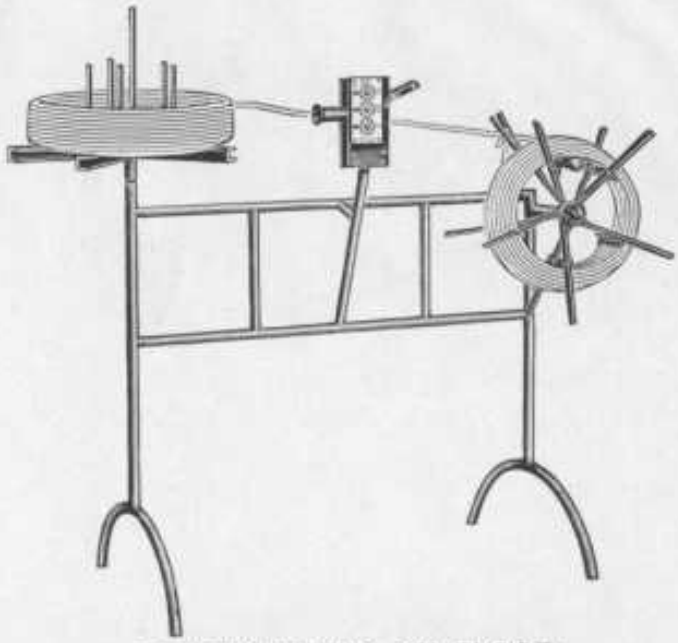

Rotary Table and Wind-off Reel—Will stand strain of large capacities of heavier materials. Welded steel construction. Integral brake prevents free wheeling and tangling of wire.

Rotary Table has four vertical spacers that are adjustable to 5 positions for various coil diameters. Vertical center post will accommodate spools of wire. Wind off Reel 22 inches diameter, 8 inches high, vertical center post 12½ inches high. Height of stand 12½ inches. Height over all 25 inches.

Per Set

✣1-M X79D00

One in pkg. Wt. pkg. 32 lbs.

FOR MOUNTING ON FLOOR

Meter—Assures accurate and efficient measurement. All gears and moving parts enclosed. Metering wheel is machined steel. Dials quickly reset to zero. Convenient release handle permits quick insertion of material. Oilite bronze bearings. Wrinkle gray enamel finish.

Heavy Duty Floor Stand—Light in weight but sturdy, of welded steel tubing with wrinkle gray finish. 37 inches high. 42½ inches long. Requires 2x5 feet of floor space.

Reel—Collapsible reel will hold 500 feet of No. 14 insulated wire, 3/16 inch manila rope or equivalent. Open construction permits tying of coils before removing of reel. Does not bend wire sharply. Steel construction throughout. Reel 12 inches diameter.

Rotary Table—Will stand strain of large capacities of heavier materials. Welded steel construction. Integral brake prevents free wheeling and tangling of wire.

Has four vertical spacers that are adjustable to 5 positions for various coil diameters. Vertical center post will accommodate spools of wire. Wind off reel 22 inches diameter, 8 inches high, vertical center post 12½ inches high.

Per Set

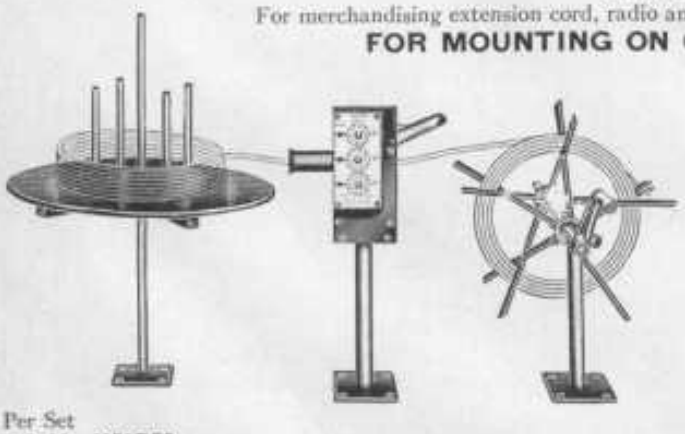

✣2-M X122D00

Packed in two pkgs. Wt. 46 lbs.

Small Gauge Equipment

For merchandising extension cord, radio and TV ribbon and smaller gauges of flexible materials.

FOR MOUNTING ON COUNTER OR WORK BENCH

Meter—Assures accurate and efficient measurement. All gears and moving parts enclosed. Metering wheel is machined steel. Dials quickly reset to zero. Convenient release handle permits quick insertion of material. Oilite bronze bearings. Wrinkle gray enamel finish.

Meter Stand—Light in weight but sturdy, of welded steel construction with wrinkle gray finish. 10 inches high.

Reel—Light duty collapsible reel and spool winder. Sturdy steel construction with oilite bearings. Wrinkle gray finish. Forms a coil 8 inches in diameter. Will accommodate spools up to 10x10 inches. Quick acting locking cone. Adjusts to any spool hub. Height 9 inches. Length over all 19½ inches.

Rotary Table and Wind-off Reel—Capacity 500 feet of No. 14 R. C. or equal. Four adjustable posts for two different coil diameters. Complete with 15 inch plywood top and stand. Sturdy welded steel construction. Wrinkle gray finish.

Per Set

✣3-M X61D50

One in pkg. Wt. pkg. 18 lbs.

Items marked ✣ not carried in stock. Can only be furnished by shipping direct from factory, F. O. B., Chicago, Illinois.

SERVICE ENTRANCE CABLE FITTINGS

Listed by Underwriters' Laboratories, Inc.

WATERTIGHT CONNECTORS COMPRESSION TYPE

For use when the cable runs directly into the top of an outside meter box. When the nut is screwed down, the rubber bushing provides a firm grip around the cable, preventing water from seeping into box.

For Round Cable

GROUND CLAMPS

Listed by Underwriters' Laboratories, Inc.

Solderless with V-shape reversible clamp. Fits Nos. 10, 8, 6 or 4 gauge bare or insulated copper wire and takes ½-inch to 1-inch water pipe or ½-inch to 1-inch ground rod. The holes through the deck run at right angles to each other, permitting ground wire to be inserted from any side. The screw when tightened, wedges the wire into a cup in the center of fitting. Making a good band and positive grip. Made of cast bronze metal

Each				Each
K1092M	**(G45)**	**D3C2★**	.....	$0.49

Two hundred in a standard package
Wt. pkg. 50 lbs.

Type WB

Type WB ground rod clamps cast from aluminum bronze furnished with large hexagon head set screw.

High tensile strength cast aluminum bronze eliminates stretching, loosening and season cracking. Cast ground rod clamp meets the need of better grounding at lower cost. This clamp assures perfect alignment between rod and wire under high pressure.

Specifications:

ELECTRIC POULTRY HOUSE TIME SWITCHES

PARAGON

Poultry House

Leading poultry raisers recognize the value of artificial lighting in laying houses, particularly during the months of limited daylight. Controlled lighting in fall and winter stimulates laying activity in poultry.

Portable, use anywhere. Easy to connect. Just plug into 115 volt A. C. outlet. Easy-to-set for any automatic lighting schedule. Accurate, dependable genuine Telechron clock motor. Guaranteed by America's leading time switch manufacturer. Makes possible the regularity required in poultry house lighting morning and evening. Keeps "daylight" uniform. A dimmer circuit induces hens to roost safely before "lights out": essential for healthy birds, good production.

Stab-lok Circuit Breakers

Simplest, Safest, Most Flexible Circuit Breaker System

Just Snap Stab-Loks in Place

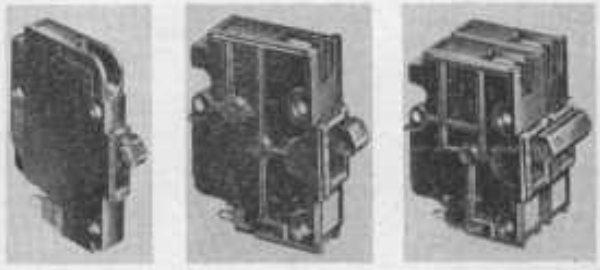

Stab-lok Circuit Breaker is easiest of all over-current devices to insert. Merely slide the end of the breaker over the sturdy metal hook and press the 4-way stabs into the proper slot in the bussing.

Combination Flush-Surface Enclosures

Contributing to the popularity of Stab-lok Circuit Breakers is the few enclosures required because of the NOARK Combination Flush-Surface enclosure. Device is shipped for surface mounting; removal of frame prepares enclosure for neat, flush mounting.

Increased Flflexibility—Lower Cost!

½" SINGLE POLE STAB-LOK NC | **1" SINGLE POLE STAB-LOK NA** | **DOUBLE POLE STAB-LOK NA**

Thin, Type NC permits increased enclosure circuit capacity; single pole Type NA is the famous "millions-tested" breaker; common trip operation of double pole Type NA automatically disconnects both poles on a short circuit or overload. All have cooperative thermal-magnetic action, ambient compensation, and Underwriters' approval.

FEDERAL PACIFIC

100 Ampere Main And Range Pull Switch

Increased loads required by new residential construction demanded this larger Federal Pacific main-and-range pull switch. This device in a single enclosure has capacity for:

Main: 100 ampere pullout, 125/250 volts A. C., 3 wire, SN.

Branches: (a) Two 60 ampere (or one 60 ampere and one 30 ampere) pullouts, 3 wire, SN, for range and/or water heater, clothes dryer.

(b) Ten plug fuses, 2 wire, SN branches for lighting circuits

In addition, it has bus extension lugs for feeding another centralized load panel.

It has the unique feature of split-solid-neutral construction. This design places each neutral terminal next to each lighting circuit. Wiring, and wire identification, therefore, are made easier while considerable wire is saved.

The block on this device is molded in one piece. The entire interior main-and-range switch can be removed from the enclosure, simplifying wiring. Replacing is simplified by a hook-on arrangement which automatically lines up the two hold-on screws.

125/250 Volt Single Phase, 3 Wire, Solid Neutral

100 Ampere Pull Switch

Designed especially for installations where space is an important factor. Yet look at these additional features. No hinged joints, your assurance of long and trouble-free service. Moreover, this pull switch is completely dead-front. Even with the puller head out, a dead-front phenolic shield covers all the live parts. "On" and "Off" positions are clearly marked.

The following overall dimensions clearly show how efficiently these switches are adapted for service in small spaces:

Enclosure	Height inches	Width inches	Depth inches

SQUARE D MAIN SERVICE SWITCHES

Listed by Underwriters' Laboratories, Inc.

FOR SINGLE PHASE CIRCUITS WITH RANGE AND LIGHTING BRANCH CIRCUITS

Square D fuse-breaks act as switch and fuse carriers. They are non-interchangeable and may be reversed for the "ON" and OFF" positions which are moulded in bakelite. Test holes are provided so that fuses may be tested without interrupting the service.

The interior is held to the box by only one screw, and is reversible, thus permitting the plug fusible circuits to be placed at the top if desired. The grounded neutrals are reversible and are provided with four 60-ampere and four 30 ampere connectors. Multiple bussing of main and range fuse-breaks, the line side is equipped with 100-ampere connectors. The interior is not fastened to the box for shipping. Since the interior is usually removed before wiring, this feature reduces installation time.

All switches are of dead-front construction to insure safe operation. The door over the fuses has provisions for sealing. Solderless connectors are furnished throughout (washer head screw type on 30- ampere terminals) for easy wiring, and there are 60-ampere tap-offs after main fuses for water heater circuit or mains extension. The base is made of light weight bakelite, with plug fuse receptacles that will accommodate non-tamperable fuses. All boxes and covers have blue-gray enamel finish.

3 Wire—60 Amperes—Grounded Neutral—125-250 Volts

Fuses—Main fuses 60-amperes. Branch fuses (see below)

SQUARE D TYPE QO CIRCUIT BREAKER LOAD CENTERS

Listed by Underwriters' Laboratories, Inc.

Single Pole

Double Pole

Trip Mechanism is of the more efficient thermal and independent magnetic type.

Overloads are controlled by a direct heating bimetal element. This gives inverse time delay for loads greater than rating of the breaker. Needless tripping is eliminated.

Short circuits or dangerous overloads act directly on the partially closed magnetic element which operates the trip mechanism fast enough to prevent heating in either the conductor or bimetal. This construction gives fast, sensitive operation without high resistance coils in series with the load.

Trip Indication is positively identified by the operating handle moving to a center position between the ON and OFF position. This definitely indicates the circuit in trouble—not just another circuit in the OFF position.

SQUARE D TYPE QO CIRCUIT BREAKER LOAD CENTERS

APPLICATION

QO circuit breaker load centers are designed for residential, commercial and light industrial application having A.C. lighting, heating, appliance, motors and machine loads. They are intended for circuit protection and switching on 1 phase, 2 or 3 wire, 120/240 volt A.C., and 3 phase, 3 wire, 240 volt A.C. or 3 phase, 4 wire, 120/208 volt A.C. Branches are available in ratings from 15 to 20 ampere single pole, 15 to 70 ampere two pole, and 15 to 50 ampere 3 pole individual trip or common trip types, as well as common trip switched neutral breakers for filling station circuits.

These load centers bear Underwriters' Laboratories approval as panel base assemblies and those complying with the six circuit subdivisions' rule are also approved for service entrance use.

QO CIRCUIT BREAKER

The QO circuit breaker was originally designed for the more expensive panelboard types of application. Automation technique at a special circuit breaker plant reduced cost so that this quality breaker could be marketed at residential levels.

Ratings—15, 20, 30, 40 and 50 ampere, single pole, rates 120/240 volt A.C., 2 wire. Twio single poles may be combined with a handle tie for individual trip, two pole operation.

Two pole common trip breaker occupies the same space as two singles. Ratings are similar, except the availability of a 70 ampere unit.

Three pole common trip breakers are available for 240 volt A.C., 3 phase service. Ratings are 15, 20, 30, 40 and 50 amp.

Compact Size—Reduces space for mounting. Single poles are ¾" wide while two poles are 1½" wide and three poles are 2¼" wide; therefore, there is no space penalty for two or three pole operations.

Operating Mechanism—Uses toggle operation of the quick-make, and quick-break type. The latch area (which determines calibration) is not affected by switching. Life tests are far in excess of Underwriters' requirements for "T" rated switches. The toggle handle acts directly against the contact blade, thus assuring positive breaking of the contacts. This is an important safety feature.

General Purpose Type, Consisting of Box, Interior and Cover. Order Breaker Separately. (Section 18—Page 30)

BUSS FUSETRONS

Stop Needless Blowing of Plug Fuses

Replace Old Style plug Fuses for Circuit Protection; don't Blow when Motors Start on Washing Machines, Refrigerators and Such Appliances; they have a Long-Time Lag Because they are a Fuse to which is Added a Thermal Cutout.

Abolish Unsafe Practice of Using Over-Size Fuses to Stop Needless Blowing. Give all the Protection Fuses Do—Hold Like a Large Fuse when Safety Permits—yet Open Like a Small Fuse when Safety Demands.

Large Clear Window Makes it Easy to Instantly Locate a Blown Fusetron.

There is no Installation Cost—Just Take Out Fuses and Screw in Fusetrons.

For Circuit Protection on Voltages Up to 125.

Wt. per 100, 6¾ lbs.

Sold Only in Full Boxes

BUSS FUSTATS

Cut Shows Fustat

Cut Shows Adapter

Operates Like a Fusetron, But Has a Non-Tamperable Base.

Resists Tampering and Over-Fuseing. Stops Use of Pennies or Slugs; Practically Impossible to Bridge with Tinfoil, Wire or any other Material. Prevents Over-Fuseing. A 20, 25 or 30 Ampere Size will not Fit in a 15 Ampere Receptacle or Adapter; Similar Limitations Apply to all other Sizes.

But That's Not Enough. A Non-Tamperable Fuse that would Blow on Starting Currents would be an Impractical Device—a Terrible Nuisance—so the Fustat **Wipes Out any Excuse for Tampering Because IT STOPS NEEDLESS BLOWING.** It won't Blow when Motors Start on Washing Machines, Refrigerators or other Appliances; it has a Thermal Cutout Combined with a Fuse.

Makes Safe Protection Remain Safe; Stops Loss of Money on Needless "Blown-fuse" Service Calls; Permits Adding More Appliances to Present Circuits.

Fit All Edison Base Fuse Holders by Use of Adapter which Locks in Place.

For Circuit Protection on Voltages up to 125.

Adapters Not Included with Fustats; Must be Ordered Separately.

BOX COVER UNITS

Listed by Underwriters' Laboratories, Inc.

BUSS FUSTAT

Fustat on a box cover protects the motor against burnout and the user against costly repair bills and delays.

On normal installations, a Fustat of motor-running protection size, mounted anywhere in the circuit to handle ONLY the motor current, will protect a motor against burnout. Nothing else is needed.

BUSS Fustat box-cover units offer the simplest possible way to install a Fustat in the motor circuit—either a Fustat alone—or a Fustat in combination with a switch or plug-in receptacle.

Made with Edison base fuseholders so that any Unit can be made to take the proper size Fustat simply by inserting the right size Adapter.

With Toggle Switch for Use on AC motors, Only ½ H.P. and Smaller—125 Volts or Less

Fustat and switch units provide both protection for the motor and a switch for operating the device—they save time and money.

Install in outlet or switch box and and screw in proper size Fustat and adapter.

To Be Mounted on a Handy Box Less Fustat and Adapter

Each		▲ Each
K551M	**D7C6**	$1.15
20 or more	**D6C9**	

One in ctn. Wt. ctn. 3½ lbs.

SIZE FUSTAT TO USE FOR MOTOR PROTECTION

Horsepower rating of a motor gives no accurate guide as to the size Fustat to use as the ampere rating of AC motors of the same horsepower varies a great deal.

To obtain highest degree of protection, on normal installations, size of Fustat should be the same as the ampere rating of the motor or slightly larger—as indicated in column of table below headed "Normal Service".

On motors that start under load such as on large fans, compressors or the like, the Code permits the use of any size up to maximum shown in the table.

In abnormal cases such as where Fustat is located in a place where a high temperature prevails—or where motor is started frequently or reverse quickly—or where motor is direct connected or chain driven to a machine that cannot be brought up to speed quickly—a Fustat larger than recommended above may be used. In this case the Fustat provides only locked rotor and short-circuit protection.

AMPERES of motor or device	Ampere rating of Fustat: Ordinary service	Heavy service	MAXIMUM: 40° C Motor*	All Other Motors
2.35 to 2.43	2¼	2⅝	3⅜	2⅝

FRICTION TAPE

SI BRAND

Manufactured by a superior method of friction, calendering a highly adhesive "not sticky" compound through the fabric, not spread on the top of the sheeting as in many tapes. Superior insulating tapes are slit before being rolled, therefore cannot ravel. Superior friction tapes contain no sulphur or harmful solvents. The wrapping seals the tape against impurities and prevents oxidation of the live rubber ingredients. Superior insulating tapes in "tuck-end" cartons which may be opened and closed without damage. The carton protects the tape for the life of the roll.

SI BRAND

Manufactured by a superior method of friction, calendering a highly adhesive "not sticky" compound through the fabric, not spread on the top of the sheeting as in many tapes. Superior insulating tapes are slit before being rolled, therefore cannot ravel. Superior friction tapes contain no sulphur or harmful solvents. The wrapping seals the tape against impurities and prevents oxidation of the live rubber ingredients. Superior insulating tapes in "tuck-end" cartons which may be opened and closed without damage. The carton protects the tape for the life of the roll.

INSULATED STAPLES

EAGLE NAIL-IT

Copper Finish

The New Eagle Nail-It Staple is started by holding it at the side of the short leg and only the long leg is driven in to start; will not bend.

An outstanding innovation, incorporates the dimensions of the two most popular sizes in use.

(256)

Per Box			Per Box
K190M	**D0C8½**—Fifty staples in a box		$0.15

Twenty boxes or one thousand in a carton

Sold Only in Full Boxes

Insulation is moisture proof, which prevents short circuits of wire under staples. For use on radio work, door bells, telephones, bell and buzzer signals.

ELECTRIC WIRING DEVICES

Listed by Underwriter's Laboratories, Inc.

LEV-O-LET

For every type of surface wiring installation, wherever non-metallic sheathed cable can be used.

Bases and covers of brown urea, a thermo-setting plastic of low arcing characteristic. Large terminals. High barriers between terminal screws for extra insulation. Knockouts for both No. 12 or 14 standard non-metallic sheathed cable, 2 or 3 wire. Knockouts on bottom of base for back wiring, on sides for knob and tube wiring. Two wood screws to hold base down. Cover is tightened with two screws to clamp the wire and make interior safe from dust. Base 1¾ inches wide and 5 inches long.

ELECTRIC SWITCHES

ARROW HART

Lockette

Control the use of your power tool outlet and protect children from high speed blades and cutting edges of workshop. Eliminates dryer, wringer and washer hazards. Operates like the ignition switch in car. When key is turned to off, electricity is turned off. Remove key and the switch has to be off. Curious probing in empty key slot cannot result in electric shock or blown fuses.

Easy to install in a few minutes.

Consists of:

PULL CHAIN SOCKETS

Listed by Underwriters' Laboratories, Inc.

GENERAL ELECTRIC

Monowatt plastic sockets with two side outlets feature four new advantages—they are safer, more secure, easier to wire, versatile. Plastic housing will not conduct ele tricity and will not tarnish or rust. Each socket has "All-Purpose" Cap. Wires three ways—as threaded nozzle, pendant, or side-outlet. Locks securely—cannot pull apart, yet opens with the thumb and a twist of the wrist. Convenient, top-mounted binding screws make wiring a cinch. Two color display package illustrates instructions.

ELECTRIC CUBE TAPS

Listed by Underwriter's Laboratories, Inc.

EAGLE

Competitive Grade

Reverse brass blades make all outlets usable. Patented finding grooves for all outlets, eliminates needless fuss and bother. Fastened permanently and invisibly. Spring prong feature on this item is most desirable to avoid the tap falling out of receptacle which so often happens with regular blade taps.

15 Amperes, 125 Volts
